

Tuberculosis (TB) Screening for Student WORKSHEET FOR SCHOOL

Date: _____ District/Charter: _____ School: _____ Grade Level _____

DOE Staff: _____

Directions:

1. Ask for list of students in selected grades & identify two new enterers for 2009-10. A new enterer is “any child between the ages of one year and twenty one (21) years entering or being admitted to a Delaware public school for the first time, including but not limited to, foreign exchange students, immigrants, students from other states and territories, and children entering from nonpublic schools.”
2. Meet with the school nurse to review TB student data.
3. Complete the information below for two (2) randomly selected new enterers in each grade.
4. Positive TB test results are recorded as “positive” or in millimeters. “0 millimeters is a negative test result. Anything higher is considered a positive result. If unsure of test results, obtain a copy for review by DOE Health Services Program Manager.

Student 1

Are TB test or screening results available for review?	NO	<input type="checkbox"/>	YES	<input type="checkbox"/>
