

## Student Score = 20

3. Using information in *Figure 3*, compare the size of the finch population in 1976 with the population in 1978. (Note: Use numerical data in your response.)

The finch population in 1976 was up by 1400 in size. And the finch population in 1978 was at about 200. It started to go up in the beginning (1976), then it went down more and more as years went by.

### Student Response

The finch population in 1976 was up by 1400 in size. And the finch population in 1978 was at about 200. It started to go up in the beginning (1976). Then it went down more and more as years went by.
