Executive Summary

House Resolution No. 33, House of Representatives, 145th General Assembly was a product of the efforts of The School Discipline Task Force, created by House concurrent Resolution No. 22.

One of the subcommittees of the School Climate Task Force was charged with making a comprehensive review of the various student codes of conduct and related school climate and discipline policies and to minimize potential inequities to students, their families, and the public school system resulting from differences among policies. The subcommittee recommended establishing standardized student code of conduct policies in all school districts and charter schools which include the following three categories, common legal definitions of student offenses that lead to alternative placement or expulsion consequences; common due process procedures for alternative placement meetings and expulsion hearings; and common procedures for the handling of Attorney General Reports.

The Subcommittee recognized that establishing standardized language in student code of conduct policies within and among school discipline regulations would require input from several constituencies.

The Department of Education was directed by House Resolution 33, The House of Representatives of the 145th General Assembly of the State of Delaware to initiate development of standardized student code of conduct policies, which will include the three areas noted above, with the input from the various stakeholders implementing, enforcing and most affected by student codes of conduct.

The Department of Education facilitated meetings on March 19, 2010 and April 12, 2010 of all stakeholders invited to participate in this endeavor. The first meeting introduced the scope of work and the focus of the targeted areas. The attendees were divided into three work groups. Volunteer Chairpersons were identified to facilitate and coordinate work efforts in each of the three targeted areas. At the second meeting Chairpersons reported out on the status of each product developed and path forward. Each group worked independently in addition to the D.O.E. meetings and in the manner they chose.

The knowledge and expertise of each contributing member in this shared initiative resulted in the creation of Common Procedures for the Handling of Attorney General Reports and the subsequent link to Common Due Process Procedures for Alternative Placement Meetings and Expulsion Hearings. Recommendations are provided for continued work on the development of Common Legal Definitions of Student Offenses that Lead to Alternative Placement or Expulsion Consequences.

The stakeholder contributors and the enclosed products developed demonstrate a clear understanding of the School Climate Task Force Subcommittee recommendations.

Recommendations to the School Climate Task Force

The following recommendations are put forward as a result of the Department of Education work to begin the development of standardized school code of conduct policies.

1. The Common Legal Definitions of Student Offenses that Lead to Alternative Placement or Expulsion Consequences Work Group had several recommendations which require the Department of Education to implement changes in the data collection tool utilized by the Local Education Agencies (LEAs) and the Department of Education (D.O.E.) for State and Federal mandatory reporting. The Department of Education currently utilizes three codes for reporting data in the discipline module. The category of “C” represents crimes, the category of “D” represents Department of Education reportable offenses, and “S” represents school violations. The suggested changes will require further work that must include the Technology, Data Collection, and the School Climate and Discipline staff at the Department of Education in order to ascertain the impact of the recommended changes and to accomplish what is possible with the recommendations in mind. The recommendation of this work group is on page 6 of this report.
2. The Common Due Process Procedures for Alternative Placement Meetings and Expulsion Hearings Work Group developed Student Disciplinary Procedures that are recommended to be implemented in all Local Education Agencies (LEAs). The Department of Education supports the implementation of these policies or LEA policies that incorporate all the like procedures. The work group product for Common Due Process Procedures for Alternative Placement Meetings and Expulsion Hearings and Appendices (“best practice” sample documents) begin on page 7 and continue through page 33 of this document.
3. The Common Procedures for the Handling of Attorney General Reports Work Group developed an Attorney General Reports Procedures Checklist for Local Education Agencies (LEAs). This work group identified the subsequent link to the work done by the Common Due Process Procedures for Alternative Placement Meetings and Expulsion Hearings Work Group on Common Due Process Procedures for Alternative Placement Meetings and Expulsion Hearings. The Department of Education supports the implementation of these procedures in all LEAs or procedures that incorporate all the like procedures. The work group product for Common Procedures for the Handling of Attorney General Reports begins on page 34 and continues through page 46 of this document.

Common Legal Definitions of Student Offenses that Lead to Alternative Placement or Expulsion Consequences Work Group Report

"C" Code Violations (Crimes):

1. The definitions approved by the General Assembly, as provided in Titles 11 and 16 of the Delaware Code, should be the definition used by all Districts and Charters Schools (hereinafter LEAs collectively)
2. Only those offenses for which a student can be charged for activities that occur at a school, on school property, or at a school supported function should be included as reportable offenses under Title 14 Del. C. Section 4112 (Ex: only the definition for Burglary 2nd should be listed since it is impossible to charge a student with a Burglary 1st because the elements are "at night" in a "dwelling")
3. Currently, DOE lists 101 "C" code offenses for reporting purposes. The sub-committee recommends that for DOE reporting "C" codes should be characterization in general terms not including the degree of offense, since school administration is not responsible for the charge. For example, any act of Assault (including Abuse of Pregnant Female) should simply be reported as "Assault". The sub-committee believes that this could bring the report Code number down to around 13 different codes. If DOE needs the specific degree or name of the offense, this information should come from a different source (i.e. AG's office after the charge has been adjudicated).
4. DOE should provide a separate booklet to the LEAs to give to students and parents listing the 4112 reportable offenses, the legal requirements for suspension and reporting to the police and possible Court outcomes. LEAs should be required to provide students with a copy of this annually, as they are for Codes of Student Conduct. If the age for reporting increases from 9 to 12 for all offenses, then LEAs would only have to provide this for Secondary students.

"D" Code (Department of Education) Violations:

DOE should define the offenses listed as "D" code violations.

"S" (School) Code Violations:

1. DOE should provide guidance to determine what defines a "chronic violation". "S" codes should be numerated using the LEA District/Charter School codes (i.e. "S" violations for the Brandywine School District should be enumerated as "S31001")
2. Current "S" codes that are present in 15 or more LEA Codes of Conduct that a chronic violation could lead to alternative placement or expulsion should have a common definition.
3. LEAs should have an "S" code definition similar to the "C" code violations in order to discipline a student under the LEA Code Conduct so that the LEA does not have to have evidence of mens rea (i.e. some violation that captures Terroristic Threatening or Offensive Touching that is not as restrictive as the definitions under Titles 11 or 16).

Attorney General Reports

Since 1993, it has been the policy of the Attorney General's Office to notify the superintendents of individual school districts of serious crimes committed by students off of school property.

In 1992, the Superior Court of Delaware decided the case of *Howard v. Colonial School District*. The Court addressed the issue of whether a School District has the ability to expel a student for off-campus non-school activity drug sales. In the case, the School Board had decided that the student, even as an off-campus drug dealer, posed a threat to the safety and welfare of other District students. The Court found that the Board correctly used its power to expel.

The Court also noted that it was "not ruling that all off-campus, non-school activity conduct subjects a student to the threat of expulsion. A clearer Code of Conduct would help to delineate such conduct."

Beginning in 2010 school year, Attorney General Reports began to be electronically disseminated to charter schools and districts via an email notification process. The process is articulated in the INTERAGENCY AGREEMENT BETWEEN THE DELAWARE CRIMINAL JUSTICE INFORMATION SYSTEM BOARD OF MANAGERS, THE DELAWARE DEPARTMENT OF EDUCATION, THE DELAWARE POLICE CHIEFS COUNCIL, LOCAL EDUCATIONAL AGENCIES AND CHARTER SCHOOLS, AND THE DELAWARE DEPARTMENT OF JUSTICE GOVERNING ACCESS TO THE CRIMINAL JUSTICE INFORMATION SYSTEM (CJIS).

The reasons for this new process are based in past practice and new resources. Technology allows for a quicker more efficient delivery of notifications from the Attorney General's Office.

What used to be a letter from the Attorney General's Office stating the charges filed against a student, has now become an electronic notification letter with contact information, a juvenile complaint and warrant (Exhibit A) issued by an Approving Judge, an Affidavit of Probable Cause (Exhibit B).

It is important to remember the notification information should not be shared with parents or others that are not a part of the Interagency Agreement. Victim and other sensitive and identifiable information are contained in the notifications and should be treated as confidential and/or appropriately redacted when utilized in any Charter School or District process or proceeding.

The decision to act upon this information will be the sole responsibility of the Charter School or District personnel.

Notification to the School Resource Officer/Law Enforcement will be for informational purposes only.

In all instances, release of student off-campus notifications to Districts and Charter Schools, and school assigned law enforcement is to protect the health, safety, and welfare of other students and staff.

Compliance with applicable confidentiality provisions must be followed.

Identified misdemeanors have been included in the notifications to allow Districts and Charter School administrators' important information on their students and in order to provide any support services they deem appropriate.

C. 14 *Del. C.* § 4111

Education records and personally identifiable information contained therein can only be released in accordance with DOE regulations. DOE has adopted the Federal FERPA regulations with two exceptions which are not applicable.

D. Family Educational Rights and Privacy Act (FERPA)

Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA, 20 U.S.C. 1232(g), 34 CFR Part 099, allows schools to disclose educational records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):

- School officials with legitimate educational interest.
- Other schools to which a student is transferring.
- Educational authorities conducting audit, evaluation, or enforcement of education programs.
- Appropriate parties in connection with financial aid to a student.
- Organizations conducting certain studies for or on behalf of the school.
- To comply with a judicial order or lawfully issued subpoena.
- Appropriate officials in cases of health and safety emergencies.
- Parents of a dependent student.
- State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. Directory information does not include student identification numbers or Social Security numbers. However, schools must give public notice to parents and eligible students about what items the school has designated as directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Missing Persons/Runaways

Upon receiving notification that a student in the school is a “missing person” or “runaway,” the School Resource Officer (SRO) will discuss the status with district personnel. They will work together to determine what occurs next. The SRO will immediately contact the agency that initiated the original investigation and entered the student as a “missing person” or “runaway.” If a student were contacted due to this notification, the student will be interviewed to determine if there are factors leading to their decision to leave the household (abuse, addiction, etc.). The Division of Family Services will be notified. The above actions will be documented in an Incident Report or Field Service Report.

Wanted Persons

Upon receiving notification that a student is “wanted” for a crime, the School Resource Officer (SRO) will evaluate the severity of the underlying charge and whether there is a victim-person associated with the crime (i.e., Shoplifting versus Assault) to determine when to take a student into custody. This decision will strike a balance between public safety and a desire to minimize the negative impact on the educational process. **Actions will be coordinated with school district personnel and documented in an Incident Report or Field Service Report.**

When a student is taken into custody on an outstanding warrant, efforts will be taken to minimize the impact of this arrest on the educational process. For example:

- The student may be called out of class to an administrative office where he/she or s/he will be taken into custody.
- Police contact in the school may be limited to the SRO assigned to the school. This decision will be left to the discretion of the SRO due to officer safety concerns.
- The school will not be utilized as a transfer point for students who are wanted by jurisdictions other than the jurisdiction of the SRO. The wanted person will be transported to the SRO’s police department facility. Other agencies will be directed to that location to take custody of the individual.
- Transports from the school will be done in a low-key manner, minimizing the visibility to other students (as much as practicable)

Possible alternatives for minor offenses may include:

- The student may be taken into custody near or at the end of the school day for less serious offenses
- Notification to parents/guardians for minor offenses and/or traffic offenses. Direction will be given to resolve the matter in a timely fashion to avoid the SRO intervention.
- Notification to parents/guardians for court capiases (except when the underlying charge has a person as a victim). Direction will be given to resolve the matter in a timely fashion to avoid the SRO intervention.
