FOREWORD

Education ranks among the most important enterprises in Delaware. In order to assure that the school system operates in an efficient and effective manner, timely information on students, staff, facilities and operations is required. This report provides a compilation of those data for the 1997-98 school year. Many of the data and more detailed information are published in other documents; however this represents a summary of the statistical information published by the department. The report has, in the past, served as a primary data source for state government officials, educators and others in the decision-making roles in the state.

The report is organized into eight major sections, each of which provides a summary of the data available in that area. The eight sections are as follows:

- Summary Statistics
- Pupils
- Staff
- Finances
- Federal Programs
- Educational Services
- Facilities
- Nonpublic Schools

I hope that the reader will find this to be a useful reference document which provides the statistical information required.

Iris T. Metts, Ed.D.
Secretary of Education
