

PUPIL INFORMATION

Information on the pupils in Delaware provides important and useful information for evaluation, planning, allocating funds and determining compliance with federal and state regulations. To be eligible for enrollment in a Delaware public school, a student must be a resident in the state and must be between the ages of five and twenty, except for identified handicapped students who may be enrolled at age three. This section contains information on public school students in Delaware regarding attendance, enrollment, handicapping condition, racial and ethnic make-up, district unit allotments, achievement, retention, graduation, and dropout. The following definitions are used in this section.

Definitions

Average Daily Attendance (ADA) – Attendance is the presence of a student on days when school is in session. A student is counted as present only when he/she is actually at school, present at another activity sponsored by the school as part of the school’s program, or personally supervised by a member of the staff. The total number of days of attendance for all students divided by the total number of school days in a given year gives the average daily attendance (ADA).

Average Daily Membership (ADM) – The total number of school days for a given school year that a student’s name is on the current roll of a class, regardless of his/her being present or absent, is the “number of days in membership” for that student. The sum of the “number of days in membership” for all students divided by the number of school days in the school term yields the average daily membership. The final average daily membership is the total days in membership for all students over the school year divided by the number of days school was in session. Average daily membership is a more accurate count of the number of students in school than enrollment.

Diploma – A document indicating graduation of a pupil from a Delaware high school.

Division I Unit – State appropriations allocated to a school district on a unit enrollment formula which are designated for the purpose of paying the employees of the various school districts of the state in accordance with the state supported salary schedules.

Division II Unit – State appropriations allocated to a school district on a unit enrollment formula that are designated for all other non-salary costs, except those for debt service and the transportation of pupils.

Division III Unit – State appropriations allocated to a school district based on a tax effort formula which is designated to equalize revenue receipts among school districts.

Document of Secondary Attainment – A document awarded the Delaware State Board of Education after satisfactory completion of the requirements of the General Education Development Testing Program (GED) to serve as sufficient evidence of levels of secondary educational attainment as revealed through these tests for purposes of employment, licensing, military service requirements and admission to post-high school educational institutions.

Enrollment September 30 – Delaware law requires a total enrollment report for each school district as of September 30. This enrollment count is used as a basis for calculation of units for pupils for school funding purposes.

FTE Student: - Derived by formula to aggregate full-time students and part-time special education students for unit comparison.

Record of Performance: - A document granted to students who have completed at least twelve years of school beyond kindergarten and who have been enrolled in a Delaware public school at least one year prior to the granting of the record. The record lists the credits earned and the minimal performance requirements met by the students.

Special: - Class for exceptional children for whom a program of special education is provided.

**Results for test-takers with valid scores enrolled in regular public schools. Grades 4 and 6 results are from the Fall 2004 administration. All others are from Spring 2005.

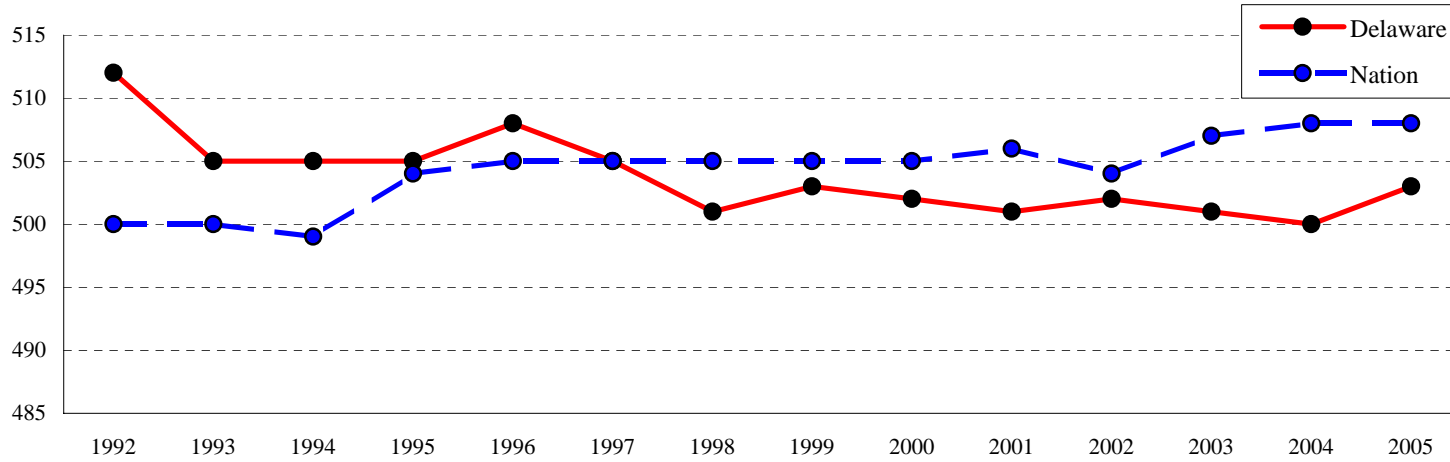

*Percentile ranks range from 1 to 99. Reading and mathematics scales are progressive and range from 150 to 800. The writing scale range is 0 to 15 at each grade.

The range for science and social studies scales is 100 to 500 at each grade.

Note: Generally, special schools and learning centers are not included in district counts because most have ungraded programs. District retention policies and procedures vary greatly. These differences may be reflected in district retention rate patterns. Retention rates in this table are based on DeISIS student records.
