

## Requesting Student Antigen Testing Material from Delaware Division of Public Health

The State of Delaware has procured materials to implement point of care COVID-19 (SARS-CoV-2) antigen testing.

Implementation of the BD Veritor™ test requires specific materials including, the BD Veritor™ Plus System Analyzer, BD Veritor™ test cassettes, BD Veritor™ reagent solution/tubes and nasal swabs. The Delaware Public Health Warehouse currently has available stock of these items.

Implementation of the For Abbott BinaxNOW™ antigen test requires materials including nasal swaps, reagent solution and test cards. The Delaware Public Health Warehouse currently has available stock of these items.

### **PROCEDURE:**

1. Complete the State Health Operations Center (SHOC) Resource Request Form [here](#) as completely as possible.
2. Scan and email the completed paperwork to [dhss06sg\\_SHOC\\_OPERATIONS@delaware.gov](mailto:dhss06sg_SHOC_OPERATIONS@delaware.gov) or fax the completed request form to: 302-223-1330
3. The request will be forwarded to the warehouse staff for completion.
4. Requesting agency will be notified when the order has been filled with a pickup location.
5. Due to the large volume of requests, please allow up to 5 business days for processing.
