

Response to CSAC  
Early College High School  
at Delaware State University

MAJOR MODIFICATION APPLICATION  
INITIAL REPORT

CSAC Initial Meeting: January 28, 2015  
CSAC Initial Report Published: February 2, 2015

There is one area in the report to which the school wishes to respond. The fifth bullet point it was Brian Martin, not Brian Hunt, from the USDE who shared the preference for students with a specific interest in the school's educational philosophy and focus violated Section E-3 of the Federal guidelines for school admissions. We sent a copy of the Regulations, with the section he mentioned highlighted, to Jennifer Nagourney on Wed 1/28/2015 at 1:39 PM. Federal administration at USDE has now been transferred from Brian Martin to Eddie Moat. We continue to work with Eddie Moat at the USDE to ensure the Enrollment Guidelines now meet Federal requirements.
