Writing Prompt

Family Foundations Academy is special because of the friendships and some teachers. The friendships I have made at F.F.A are special. Some people I have just met and others I know for a long time. Some of the teachers are cool and really care. That is why I think it's special.

FFA is a great place for serious learners. It also has a good learning environment of children of all ages. The teachers are free and the teachers try their best to make learning here at FFA as fun as possible. That is what FFA is special!

Dear students and parents and teachers

F.F.A should stay open because we have a good program. F.F.A should stay open because we have good leaders AKA DR. Brewington and Mr. Moore. Another reason why F.F.A should stay open because we have good teachers and staff. We should stay open so our little children could have a good education. The main reason why we should stay open is because some people don't have the money to go to a new school.

We should keep this school open because we get respect right.

PLEASE LET
ARE SCHOOL
STAY OPEN!!!

Hello Department of Education my name is Prakash from Family Foundation Academy. I have been here for quite some time. As I think FFA is special because it has a better learning style than any other school I have seen in. Also it's special because it has some kind of spot to play and it's free to sign for it. It is special because all the teachers are nice and give out prizes if you do something good. I think FFA is special because if something is hard for you to understand or get then teachers always help and make you get it right.
