Subject: Family Foundations Academy Charter School

Dear Ms. Whalen and Ms. Nagourney,

I am writing this letter to support the charter renewal of Family Foundations Academy Charter and ask that you reinstate Dr. Tenell Brewington, it is time she is returned home. Dr. Brewington put her heart and soul into her service at Family Foundations, not only was she directing the elementary school but most days she was also a presence at the middle school making sure things were going right.

I remember wondering in 2007 where I would be sending my child for first grade at the time I was not too keen on my home school. I asked God to help me with my search and then there it was a bill board announcing enrollment for Family Foundations Academy Charter School. When I arrived at my destination I made the phone call and set up a tour, my Husband and I went to visit the school where we first met Dr. Brewington she greeted us with a smile and open arms. We could hear her passion for teaching. We toured the school and knew by the the time we left he would be attending the school. I felt the road would not always be smooth and it was not because it was a new school and it was growing. My child did very well at the school Academically and mentally. I was a very, very involved parent.

As my child got closer to the 4th grade I and many other parents began to wonder what the next step would be, where next? Then I heard there would be a middle school even more excited when I heard the two schools would be housed in one location. The one location did not happen but my child did attend the middle school.

The principles and vision of the school were great, and there were many

great Teachers and Parents that passed through those walls. When the school opened to outside students the climate somewhat changed but I believe the students and parents that began the journey helped by speaking up.

I feel when Dr. Brewington is brought back home she will prove to you that the vision is not lost. The Parents and Teachers are very concerned especially for the students they need her too. I feel we need to remove and eliminate the current board it was established with a bias. We need to populate those committiees that stand vacant. Dr. Brewington lived at the school, nights and weekends you could find her there working and preparing for the next day on many occasions. I feel the Community of Parents, Teachers and Students will have a lot of good things to look forward to. They need this school. The future is not promised to us but it is what we make of it. Give us the chance to show you.

Thank you,

Mrs. Thompson

Hello

Please reinstate the certified school leader. The school is not the same without her. Why did the board wait until December to suspend her? Did the misuse happen in December? It doesn't look like it.

The school's legal council A. Wohlstetter and board wanted her out of the way. What did she do to them to make them act this way to her? Yet they kept Mr. Moore employed through sexual harassments and misuse.

Please reinstate the certified school leader. Please remove the board.

M. Carlson
