Subject: Odyssey Charter School

Importance: High

After all that I have read regarding charter schools in the paper, I wonder why Odyssey Charter School has never been held accountable for many of their decisions and actions. The conduct themselves anyway they please without any consequences. There are too many complaints to list here but just one major one is the safety of the students. Please look into this school. My child doesn't go there anymore because they don't care enough to protect the children from potential strangers, bus problems, and not giving her the services she was legally suppose to get. BUT this is everywhere in the lower school. Please, please look closely into this school because if you don't, who will.

Sincerely,

Concerned Parent
