

SCR 22 Education Technology Task Force
Teaching & Learning

Goal: *Review the current condition of technology in the public education classrooms and educational settings of the State and prepare a plan to outline actions that support Delaware becoming the premier state for utilizing technology in pre- kindergarten to grade 12 education.*

As a result of the work of this subcommittee, we will :

- (g) Recommend a phased plan for the implementation of the State educational technology plan;**
- (h) Recommend a funding plan for the implementation of the State educational technology plan;**
- (i) Recommend a plan to track and assess progress in the implementation of goals set forth in the State Educational Technology Plan.**

Wrap-Up

Major Decision Points

Please combine decision points from previous pages

- The Subcommittee met and spent the entire hour discussing, making changes and recommendations on the draft plan.
- Would like to move forward and have everyone on the subcommittee see the changes.
- Phone conference to trim down to something more approachable. Things planned to outline in goals.
- Talked about having a TPAC model
- Have a Central Delaware repository of best practices.

Deliverables
