Board of Directors
EastSide Charter School
Wilmington, Delaware

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the EastSide Charter School ("the School"), Wilmington, Delaware (a component unit of the State of Delaware), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion on the reporting entity and unmodified opinions on the governmental activities and major fund.

Board of Directors
EastSide Charter School

Basis for Adverse Opinion on the Reporting Entity

The financial statements referred to above include only the primary government of EastSide Charter School, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise EastSide Charter School's legal entity. The financial statements do not include financial data for EastSide Charter School's legally separate component unit, which accounting principles generally accepted in the United States of America require to be reported with the financial data of EastSide Charter School's primary government.

Adverse Opinion on the Reporting Entity

In our opinion, because of the significance of the matter described in the Basis for Adverse Opinion on the Reporting Entity paragraph, the primary government financial statements do not purport to, and do not, present fairly the financial position of the reporting entity of EastSide Charter School as of June 30, 2018 and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions on the Governmental Activities and Major Fund

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the EastSide Charter School as of June 30, 2018, and the respective changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note A to the financial statements, EastSide Charter School has adopted the requirements of GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions." This statement modifies the accounting for the School's other postemployment benefits. As a result, the beginning governmental activities net position has been restated. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 11, and the budgetary comparison information, schedule of the School's proportionate share of the net pension liability, schedule of School pension contributions, schedule of the School's proportionate share of the net OPEB liability, and schedule of School OPEB contributions on pages 35 through 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing

Board of Directors
EastSide Charter School

standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School's basic financial statements. The combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, and schedule of expenditures by natural classification - governmental funds, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, schedule of expenditures by natural classification - general fund, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, and schedule of expenditures by natural classification - general fund are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 28, 2018, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.
