Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of Kuumba Academy Charter School (a component unit of the State of Delaware) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Kuumba Academy Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Kuumba Academy Charter School's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Directors
Kuumba Academy Charter School
Wilmington, Delaware

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of Kuumba Academy Charter School as of June 30, 2018, and the respective changes in financial position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Emphasis of Matter

As discussed in Note E to the financial statements, the Kuumba Academy Charter School adopted new accounting guidance, implementing Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 6 through 11, budgetary comparison information on pages 37 and 38, the Schedules of Proportionate Share of the Net Pension Liability on page 39 and the Schedules of Contributions on page 40, and the Schedules of Proportionate Share of the Net OPEB Liability on page 41 and the Schedules of Contributions on page 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Kuumba Academy Charter School's financial statements. The supplementary information, reflected on pages 43 through 45, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Directors
Kuumba Academy Charter School
Wilmington, Delaware

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 28, 2018, on our consideration of Kuumba Academy Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Kuumba Academy Charter School's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2018

The discussion and analysis of the financial performance of Kuumba Academy Charter School (the "School") provides an overview of the School's financial activities for the fiscal year ended June 30, 2018.

FINANCIAL HIGHLIGHTS

The School's net position reflects a negative balance of \$13,134,400, of which the pension and OPEB liabilities account for \$16,774,236. Without these liabilities, net position would be a positive \$3,639,836. Program revenues accounted for \$1,710,242 or 17.3% of total revenue, and general revenues accounted for \$8,161,658 or 82.7%.

The Governmental Fund reported a balance in the amount of \$1,730,429.

USING THIS ANNUAL FINANCIAL REPORT

This annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the School as a whole and then proceed to provide a detailed look at specific financial activities.

REPORTING KUUMBA ACADEMY CHARTER SCHOOL AS A WHOLE

Fiscal year 2018 is the School's seventeenth year of operations. One of the most important questions asked about School finances is, "Is the School better or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the School as a whole and about its activities in a manner that helps to answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year's revenue and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the School's net position and changes in net position. The change in net position provides the reader with a tool to assist in determining whether the School's financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors such as educational related legislation, student enrollment growth, facility conditions and other issues in arriving at a conclusion regarding the overall health of the School.

REPORTING THE SCHOOL'S MOST SIGNIFICANT FUND

All of the School's activities are reported in the Governmental Fund, which focuses on how money flows into and out of that fund and the year-end balance available for spending in future periods. This fund is reported using the modified accrual basis of accounting, which measures cash and other financial assets that can readily be converted to cash. The Governmental Fund statements provide a detailed short-term view of the School's general operations and the basic services it provides. Governmental Fund information helps one determine whether there are more or fewer financial resources available to spend in the near future to finance the School's programs and/or operations. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and the Governmental Fund is reconciled in the basic financial statements.

ENTITY-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the government's financial position. In the case of the School, liabilities exceed assets by \$13,134,400 at the close of the fiscal year. The School's unrestricted net position was \$(13,786,853). \$24,598 was invested in capital assets net of related debt and \$627,855 is restricted for school programs.

A comparative net position analysis of fiscal years 2018-2017 follows:

The Statement of Activities shows the cost of program services and the charges for services offsetting those services. Charges to school districts increased as a result of an increase in pupil enrollment. Operating grants and contributions increased due to an increase in private fundraising.

THE SCHOOL'S FUNDS

The School's Governmental Fund reported a fund balance of \$1,730,429, which is an increase from the prior year, as a result of increased enrollment.

The majority of Kuumba Academy's total revenue (82.6%) comes from state sources and local school districts. State and local revenue is contingent upon the School's total enrollment population and the students' residential districts. The socioeconomic diversity and special needs of the School's population dictate entitlement to federal funding which accounts for (10%) of total revenue. Contributions, earnings on cash and investments, rental sales and students' lunch fees account for (7.5%) of total revenue. The reliance on this revenue is to support programs and facility expenditures that are not allotted for in federal, state and local funds.

General Fund Budget Information

Kuumba Academy's budget is prepared in accordance with the modified accrual basis of accounting.

Appropriate adjustments are made to the budget based on unanticipated revenue increases or shortfalls due to federal, state and Delaware Department of Education requirements and/or legislation, lack of contributions, etc. Some appropriations required changes in functional categories due to spending patterns.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2018

Revenues

State Aid - The favorable variance of \$34,614 is attributed to increased funding for teaching experience and education levels.

Charges to School Districts - The favorable variance of \$715 is attributed to Cost Recovery Funds.

Federal Aid - The unfavorable variance of \$22,797 is due to a timing difference of anticipated 21st Century grant expenditures.

Earnings on Cash and Investments - The unfavorable variance of \$14,426 is due to less than anticipated interest on cash balances.

Local Fundraising - The favorable variance of \$304,957 is due to additional private grants not anticipated in the beginning of the year.

School Programs - The unfavorable variance of \$39,886 is due to less than anticipated collection of Purchase of Care Fees for after school programs.

Expenditures

Salaries and Employment Costs - The favorable variance of \$86,252 is attributed to staff changes during the second half of the school year.

Contractual Services - The unfavorable variance of \$134,154 is due to increased expenditures to support special education students.

Transportation - The favorable variance of \$33,860 is due to fewer demands for transportation for extra-curricular activities.

Supplies and Materials - The unfavorable variance of \$20,738 is due to more than anticipated supplies needed to meet the educational needs of students.

Public Utilities - The unfavorable variance of \$13,684 is attributed to retroactive billing by utility company for prior years' usage.

Facility Costs - The unfavorable variance of \$37,214 is attributed to greater energy demands than anticipated service for the 519 N. Market Street building.

Capital Assets

The School has \$24,598 invested in capital assets, net of depreciation, all of which is attributed to governmental activities. The increase in accumulated depreciation was \$8,682. Detailed information regarding capital assets activity is included in the notes to the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2018

Long-Term Debt

The School does not have any debt as of June 30, 2018.

FACTORS EXPECTED TO HAVE AN EFFECT ON FUTURE OPERATIONS

The School has identified a continued need to provide students with additional support services and educational programs. Many of these programs will require additional resources not adequately funded with federal, state, or local district revenue. Also, potential cutbacks in educational spending at the federal, state and local level could impact the School's financial resources to meet the State's accountability requirements. In anticipation of these events, the School is taking steps to increase the percentage of funding from nongovernmental resources. Effective July 1, 2014, the School moved into the Community Education Building located at 1200 N French St in Wilmington. In the interim, the school will retain 519 N Market Street location as a rental property until the building is sold.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Charter School

Kuumba Academy Charter School (the "School") is organized under Delaware Code, Title 14, Chapter 5 of the State of Delaware. The Charter School Law grants authority for independent public schools to be created for the purpose of increasing choices for parents of public school students and increasing academic performance. A charter school is an independent public school governed by an independent Board of Directors. In Delaware, charter schools have the same basic standing as a school district with some exceptions--most notably, they may not levy taxes. To encourage innovation, charter schools operate free from a number of state laws and regulations. The School's initial charter was granted for a three-year period, renewable every five years thereafter. The School was renewed for an additional five years through June 30, 2019.

Charter schools are funded similarly to other public schools in that state and local funds are allocated for each enrolled student. Public funds are not provided for facilities. Charter schools may charge for selected additional costs consistent with those permitted by other school districts. Because a charter school receives local, state and federal funds, they may not charge tuition.

The School is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been reflected in the School's financial statements.

The basic financial statements of the School have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the School are described below.

Reporting Entity

The School is considered to be a component unit of the State of Delaware. A component unit, although a legally separate entity, is, in substance, part of the State of Delaware's (the "State") operations. The School has no component units for which it is considered to be financially accountable.

NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statements of net position and the statements of activities) report information on all of the non-fiduciary activities of the School.

The statements of activities demonstrate the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include (1) charges to students who purchase, use, or directly benefit from goods and services provided and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Grants and other revenues not properly included among program revenues are reported instead as general revenues. Likewise, general revenues include charges to school districts.

Separate financial statements are provided for the Governmental Fund.

Measurement Focus, Basis of Accounting and Financial Statement Preparation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Charges to school districts are recognized as revenues in the year for which they are billed. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first, then unrestricted resources as they are needed.

The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The School reports the following major Governmental Fund:

- The *General Fund* is the School's primary operating fund. It accounts for all financial resources of the School.

Encumbrance accounting is employed in the Governmental Fund. Encumbrances (e.g., purchase orders and contracts) outstanding at year-end are reported as reservations of fund balance and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year. An encumbrance balance of \$75,135 is outstanding as of June 30, 2018.

Cash and Cash Equivalents

Cash and cash equivalents of the School are funds part of an investment pool controlled by the State Treasurer's Office in Dover, Delaware as well as deposits with local financial institutions.

Capital Assets

The School defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal repairs and maintenance that does not add to the value of the asset or materially extend the life of the asset is not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the School are depreciated using the straight-line method over the estimated useful lives of the related assets. The School generally uses the following estimated useful lives:

	<u>Years</u>
Furniture and fixtures	10
Equipment	5-7
Leasehold improvements	8

Compensated Absences

Vacation and sick pay plus related payroll taxes are accrued when earned in the government-wide financial statements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School has two items that qualify for reporting in this category; deferred outflows related to pension activities and deferred outflows related to OPEB activities. These amounts are reported in the statement of net position and are deferred and recognized as an outflow of resources in the period to which the expense applies.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School has two items that qualify for reporting in this category; deferred inflows related to pension activities and deferred inflows related to OPEB activities. These items are reported only in the statement of net position. These amounts are deferred and recognized as an inflow from resources in the period that the amounts become available.

Vacation

Vacation must be taken and cannot be accumulated from year to year. Employees are paid for unused vacation upon termination, retirement, etc., at the current rate of pay.

Sick Leave

Sick leave allowances are ten days per year for each full-time employee. Any unused sick days shall be accumulated to the employee's credit without limit. Employees are paid for unused sick leave upon termination, retirement, etc., at a maximum of five days of pay. Remaining days are forfeited.

Fund Balances

In the fund financial statements, the Governmental Fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the School is bound to honor constraints on the specific purposes for which amounts in the respective Governmental Funds can be spent. The classifications used in the Governmental Fund financial statements are as follows:

- ***Nonspendable:*** This classification includes amounts that cannot be spent because they are either (1) not in spendable form or (2) are legally or contractually required to be maintained intact. The School has classified prepaid items as being nonspendable as these items are not expected to be converted to cash or are not expected to be converted to cash within the next year. The School had \$15,122 in prepaid rent expense that was considered nonspendable as of June 30, 2018.
- ***Restricted:*** This classification includes amounts for which constraints have been placed on the use of the resources either (1) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation. The School has \$627,855 restricted for school programs as of June 30, 2018.
- ***Committed:*** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the School. These amounts cannot be used for any other purpose unless the School removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The School did not have any committed resources as of June 30, 2018.
- ***Assigned:*** This classification includes amounts that are constrained by the School's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the School Council or through the School Council delegating this responsibility to the School management through the budgetary process. The School had \$75,135 in encumbered funds that were considered assigned as of June 30, 2018.
- ***Unassigned:*** This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other Governmental Fund that cannot be eliminated by offsetting of assigned fund balance amounts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE B - CASH AND CASH EQUIVALENTS

At June 30, 2018, the School had a cash and cash equivalents balance of \$1,927,195. \$1,891,592 of these funds were part of an investment pool controlled by the personnel of the State Treasurer's Office in Dover, Delaware. All investment decisions are made by the State Treasurer's Office. These funds are considered to be highly liquid and available for immediate use and, thus, are recorded as cash equivalents in the financial statements.

The funds held by the state investment pool, an internal investment pool, are specifically identified for the School, but the credit risk cannot be categorized for these funds. Credit risk for such investments depends on the financial stability of the State. The State reports that its investment securities are stated at quoted market prices, except that investment securities with a remaining maturity at time of purchase of one year or less are stated at cost or amortized cost. Because the State of Delaware investment pool is sufficiently liquid to permit withdrawal of cash at any time without prior notice or penalty, equity in the pool is deemed to be a cash equivalent.

In addition, the School had cash of \$35,603 on deposit with a local bank. These funds were fully covered by FDIC insurance at June 30, 2018.

NOTE D - PENSION PLAN

Summary of Significant Accounting Policies

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Delaware Public Employees' Retirement System ("DPERS") and additions to/deductions from DPERS's fiduciary net position have been determined on the same basis as they are reported by DPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information About the Pension Plan

Plan Description - DPERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to virtually all full-time or regular part-time employees of the State of Delaware, including employees of other affiliated entities. There are two tiers within the plan: 1) Employees hired prior to January 1, 2012 (Pre-2012), and 2) Employees hired on or after January 1, 2012 (Post-2011). DPERS issues a publicly available financial report that can be obtained from the pension office at McArdle Building, Suite 1; 860 Silver Lake Blvd.; Dover, DE, 19904.

NOTE D - PENSION PLAN (Continued)

Benefits Provided - DPERS provides retirement, disability and death benefits. Pre-2012 members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least five years of credited service; (b) age 60 with 15 years of credited service; or (c) 30 or more years of service regardless of age. Post-2011 members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least ten years of credited service; (b) age 60 with 20 years of credited service; or (c) 30 or more years of service regardless of age.

Pre-2012 participants are eligible for disability benefits after five years of credited service. In lieu of disability pension benefits, over 90% of the members in this Plan opted into a Disability Insurance Program offered by the State effective January 1, 2006. Post-2011 participants are not offered disability pension benefits and are in the Disability Insurance Program.

Death benefits are payable upon the death of an active member who has reached age 62 with at least five years of credited service. Such benefits are paid at 75% of the benefit the employee would have received at age 62. If an employee is currently receiving a pension, the eligible survivor receives 50% of the pension benefit (or 67.7% with 2% reduction, 75% with 3% reduction, or 100% with 6% reduction of benefit). Burial benefits of \$7,000 per member are also provided.

Contributions

Members Contributions

- Pre-2012 members contribute at 3% of earnings in excess of \$6,000.
- Post-2011 members contribute at 5% of earnings in excess of \$6,000.

Employer Contributions

Employer contributions are determined by the Board of Pension Trustees. Employer contributions were 9.58% of earnings for the Fiscal Year 2018. Contributions to the plan from the School were \$394,678 for the year ended June 30, 2018.

NOTE D - PENSION PLAN (Continued)

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the School reported a liability of \$2,579,616 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2016 to June 30, 2017. The School's proportion of the net pension liability was calculated utilizing the employer's one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2017, the School's proportion was 0.1760%, which was an increase of 0.0201% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the School recognized expense from pension changes of \$641,979. At June 30, 2018, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 29,779	\$ 45,480
Net difference between projected and actual investment earnings	301,566	-

NOTE D - PENSION PLAN (Continued)

\$394,678 reported as deferred outflows of resources related to pensions resulting from School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>June 30,</u>		
2019	\$	183,623
2020		642,535
2021		457,877
2022		7,924
2023		121,303
Thereafter		<u>-</u>
	\$	<u>1,413,262</u>

Actuarial Assumptions - The total pension liability as of June 30, 2017, was determined by rolling forward the System’s total pension liability as of the June 30, 2016 actuarial valuation to June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

- **Investment Return** - 7.0%
- **Salary Increases** – 2.5% plus merit, includes inflation at 2.5%
- **Cost of Living Adjustments** – 0%

During 2017, the Trustees approved a decrease in the discount rate from 7.20% to 7.0%. Mortality assumptions are based on the RP-2014 tables with gender adjustments for healthy annuitants and disabled retirees and an adjusted version on MP-2015 mortality improvement scale on a fully generational basis.

The total pension liabilities are measured based on assumptions pertaining to the interest rates, inflation rates, and employee demographic behavior in future years. The assumptions used were based on the results of an actuarial experience study conducted in 2016. It is likely that future experience pg 27 will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

KUUMBA ACADEMY CHARTER SCHOOL

 NOTES TO THE BASIC FINANCIAL STATEMENTS
 JUNE 30, 2018

NOTE D - PENSION PLAN (Continued)

Projected benefit payments do not include the effects of projected ad hoc cost-of-living adjustments (ad hoc COLAs) as they are not substantively automatic. The primary considerations relevant to making this determination include the historical pattern of granting the changes and the consistency in the amount of the changes.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's current and expected asset allocation is summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	33.5%	5.7%
International equity	13.7%	5.7%
Fixed income	26.6%	2.0%
Alternative investments	22.7%	7.8%
Cash and equivalents	3.5%	0.0%
	<u>100.0%</u>	

Discount Rate - The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at rates determined by the Board of Pension Trustees, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

General Information about the OPEB Plan

Plan Description

The State of Delaware's Other Postemployment Benefit (OPEB) Fund Trust (the Plan) is a cost-sharing multiple-employer defined benefit plan established in the Delaware Code. The Plan is administered by the Delaware Public Employees' Retirement System (DPERS). The State of Delaware (the State) is responsible for the policy and management of the OPEB benefits provided to retirees. The Plan's assets may be used only for the payment of benefits to the members of the Plan in accordance with the terms of the Plan. Additional financial and actuarial information with respect to the Plan may be found in the State of Delaware Comprehensive Annual Financial Report available online at <https://accounting.delaware.gov/>.

Benefits Provided

The Plan provides medical coverage to pensioners and their eligible dependents covered under the following pension plans: State Employees', New State Police, Judiciary and Closed State Police Pension Plans. This includes the employees of the State as well as employees of the State's component units and affiliated agencies which are part of the State Employees' Pension Plan. Those employers include Delaware Charter Schools. The participant's cost of Plan benefits is variable based on years of service within those pension plan categories. Pensioners who retire after July 1, 2012 and who become eligible for Medicare will pay an additional 5% of the Medicare Supplement offered by the State. Surviving spouses are eligible for coverage after a retiree's death.

Funding Policy

Participating employers fund the Plan for current retirees on a pay-as-you-go basis along with funding for future benefits at a rate that is approved in the annual budget, but not actuarially determined. By State Statute Chapter 52, Title 29 of the Delaware Code, contribution requirements of Plan members and the government are established and may not be amended by the State Legislature. Funds are recorded in the Plan for the payment of retiree healthcare claims, administrative and investment expenses. Administrative costs are financed through investment earnings. State appropriations, other employer contributions, and retiree contributions for healthcare are recorded in the Plan. The funds available are invested under the management of the DPERS Board of Pension Trustees, which acts as the Board of Trustees for the Plan and is responsible for the financial management of the Plan.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the School reported a liability of \$14,194,620 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2016 with update procedures used to roll forward the total OPEB liability to June 30, 2017. The School's proportion of the net OPEB liability was based on a projection of the School's long-term share of contributions of all participating employers, actuarially determined. At June 30, 2017, the School's proportion was 0.1719%.

For the year ended June 30, 2018, the School recognized OPEB expense of \$984,467. At June 30, 2018, the School reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>

2023		(20,892)
Thereafter		-

Actuarial Assumptions

The total OPEB liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

- Discount Rate – 3.58%
- Projected salary increases – 3.25% + Merit
- Healthcare cost trend rates – 7.00%

Mortality rates were based on the sex-distinct RP-2014 Total Dataset Healthy Annuitant Mortality Table, including adjustments for healthy annuitant and disabled annuitant factors for each covered Plan. Future mortality improvements are projected to 2020.

The total OPEB liabilities are measured based on assumptions pertaining to the interest rates, inflation rates, health costs, and employee demographic in future years. The assumptions used were based on the results of an actuarial experience study conducted in 2016. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Investments

Investment Policy – The State Board of Pension Trustees is responsible for the management and investment of funds in the OPEB Trust. The Board authorized its investment committee to select the investment managers of the OPEB Trust following the established investment guidelines for DPERS until a separate investment policy is adopted for the OPEB Trust. The guidelines follow the prudent person standard, which requires fiduciaries to discharge their duties solely in the interests of participants and their beneficiaries with such care, skill, prudence, and diligence as a person acting in like circumstances would exercise in the conduct of an enterprise with similar character and similar aims. The OPEB Trust investment objectives and policies currently include indexed exposure to approximate the DPERS’ policy benchmark. The Investment Committee regularly reviews the OPEB investment performance, and considers investment vehicles which strike a balance between risk and return while being mindful of the government’s time horizon for the OPEB investments. Plan assets are managed on a total return basis.

Rate of Return - For the year ended June 30, 2017, the annual money-weighted rate of return on plan investments, net of plan investment expense, was 10.6%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on the OPEB Trust plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2017 (see the discussion of the OPEB Trust’s investment policy) are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equities	36.70%	3.75%
International equities	19.20%	3.75%
Fixed income	38.10%	3.75%

Discount Rate

The discount rate used to measure the total OPEB liability was 2.85% at the beginning of the current measurement period and 3.58% at the end, based on the Bond Buyer GO 20-Bond Municipal Bond Index, an index satisfying the GASB requirement of an index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current contribution rate and that employer contributions to the Plan will continue to follow the pay-as-you-go contribution policy. Based on the assumptions of a pay-as-you-go plan, the discount rate used at the June 30, 2017 measurement date is equal to the applicable rate of the 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Detailed information about the OPEB plan's fiduciary net position can be found in the separately issued State of Delaware Comprehensive Annual Financial Report available online at <https://accounting.delaware.gov/>.

NOTE F - LEASING ARRANGEMENTS

The School leases a facility at 519 N Market Street from the Christina Cultural Arts Center, Inc. (the "Center") (a related party). The School has an obligation to the Center to pay rent on the building in monthly installments of \$15,122. The Center's executive director serves on the School's board of directors, therefore the Center is considered a related party. Total rental expense to the Center for the fiscal year ended June 30, 2018, was \$181,464.

Effective July 1, 2014, the school moved into the Community Education Building (CEB) located at 1200 N French St in Wilmington. The annual lease payment for the CEB is \$1,366,605. The school will retain 519 N Market Street location as a rental property until the Board develops a strategic plan on its permanent use.

The following is a schedule of the future minimum rental under the lease at June 30, 2018:

<u>Year Ending</u> <u>June 30,</u>	
2019	\$ <u>1,366,605</u>

NOTE G - RELATED-PARTY TRANSACTIONS

The leasing arrangement between the School and the Center calls for basic rent equal to the yearly debt service of the Center (described in Note I).

The School also utilizes the Center as a provider for cultural arts programs for its students. Expenses incurred for instructional programs during the year ended June 30, 2018 were approximately \$90,666.

NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE H - RISK MANAGEMENT

The School has purchased commercial insurance policies for various risks of loss related to torts; theft, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God. Payments of premiums for these policies are recorded as expenses of the School. Insurance settlements have not exceeded insurance coverage in either of the past two years. There were no significant reductions in coverage compared to the prior year.

NOTE I - COMMITMENTS AND CONTINGENCIES

In the normal course of business, there are various outstanding commitments and contingent liabilities in addition to the normal encumbrances for the purchase of goods and services. The School does not anticipate losses from these transactions.

Co-Surety on Mortgage Notes

The School has guaranteed mortgage note obligations for the Christina Cultural Arts Center (a related party) with Cinnaire in the original amount of \$2,140,000, maturing on April 1, 2025. Installments on the notes are payable monthly.

Grants

The School receives financial assistance from federal agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the State Office of Auditor of Accounts. Any disallowed claims resulting from such audits could become a liability of the General Fund. The School's administration believes such disallowance, if any, would be immaterial.

NOTE J - ECONOMIC DEPENDENCY

School revenues in excess of 10% of total revenues are comprised of the following:

State subsidy	52%
Charges to school districts	31%

NOTE K - PRIOR PERIOD ADJUSTMENT

The School implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, effective July 1, 2017. The objective of GASB Statement No. 75 is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pension plans. GASB Statement No. 75 states that local governments have to record their share of the State of Delaware Other Postemployment Benefits (OPEB) Fund Trust unfunded liability.

For the government-wide governmental activities, the School has treated their proportionate share of beginning of year net OPEB liability of \$13,724,256 and beginning of year deferred outflows of resources of \$407,875 as having been recognized in the period incurred. The School has adjusted beginning net position for the governmental activities from \$429,956 to (\$12,886,425).

NOTES TO THE BUDGETARY COMPARISON SCHEDULE
YEAR ENDED JUNE 30, 2018

NOTE A - BASIS OF ACCOUNTING

The accompanying budgetary comparison schedule is prepared on the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

NOTE B - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

These excess expenditures were funded by various functions that were under budget in the General Fund and fund balance carried over from the prior year.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of Directors
Kuumba Academy Charter School
Wilmington, Delaware

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of Kuumba Academy Charter School as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Kuumba Academy Charter School's basic financial statements, and have issued our report thereon dated September 28, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Kuumba Academy Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Kuumba Academy Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of Kuumba Academy Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors
Kuumba Academy Charter School
Wilmington, Delaware

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Kuumba Academy Charter School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

***Independent Auditors' Report on Compliance for Each Major Federal Program
and Report on Internal Control Over Compliance in Accordance with Uniform Guidance***

To the Board of Directors
Kuumba Academy Charter School
Wilmington, Delaware

Report on Compliance for Each Major Federal Program

We have audited Kuumba Academy Charter School, Wilmington, Delaware (a component unit of the State of Delaware)'s compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of Kuumba Academy Charter School's major federal programs for the year ended June 30, 2018. Kuumba Academy Charter School's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Kuumba Academy Charter School's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Kuumba Academy Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Kuumba Academy Charter School's compliance.

To the Board of Directors
Kuumba Academy Charter School
Wilmington, Delaware

Opinion on Each Major Federal Program

In our opinion, Kuumba Academy Charter School complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs identified in the summary of auditor's results section for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of Kuumba Academy Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Kuumba Academy Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Kuumba Academy Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors
Kuumba Academy Charter School
Wilmington, Delaware

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENITURES OF
FEDERAL AWARDS
YEAR ENDED JUNE 30, 2018

NOTE A - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Kuumba Academy Charter School under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operation of Kuumba Academy Charter School, it is not intended to and does not present the financial position, change in net assets, or cash flows of Kuumba Academy Charter School.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on this Schedule are reflected on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Kuumba Academy Charter School has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.
