Public Comment: I am in favor of opening the Delaware STEM academy in September. I know Brett Taylor and he to me exemplifies one who has a vision that supports education for students in the public school system who would benefit and thrive in a smaller environment in the area of Science, Technology, Engineering, and Math. I know that this school will be a very good investment on the part of the State of Delaware.

Public Comment: I totally support the STEM Academy and I have known Brett Taylor for several years and I find him to be totally sincere and focused on making the STEM academy everything that it could possibly be.
