**Public Comment:** I believe that the Delaware STEM Academy is very important for the children of Delaware today, giving our children a better opportunity for jobs. Jobs that are need here in Delaware and in the world. This would give our children alittle bit more of a jump and do much better in college. Please give DELAWARE STEM ACADEMY a chance to show they can do it and that more people will want to join once they see what a GREAT school it will be.

**Public Comment:** I have enrolled my son Alexander at the Delaware STEM Academy. I went to an Open House, met the staff, and I am convinced that this school fills a huge void in the Delaware school,community. The STEM program itself is so well suited to my son's needs, and I am sure that while he was doing well in a traditional school, he will shine at STEM. I encourage the Board to allow STEM to open in September 2016. The staff, students and parents are 100% committed to making this work.
