**Subject:** MOT Charter School Renewal Endorsement

To Whom It May Concern,

I am writing this letter of support on behalf of the MOT Charter School District's charter school renewal application. My colleagues and I ([Delaware Math Coalition Professional Teaching and Learning Team](#)) have had the pleasure of working with teachers and leaders in the school since before the opening of MOT Charter High School. The climate and culture of the school is one that every school leader aspires to create. For example, teachers in the mathematics department engage in genuine collaboration around the lessons they are teaching. They identify the key ideas in their lessons, how students' understanding is evolving over time, and how to support student ownership and mathematical agency. Department planning and PLC time is routinely invested analyzing classroom video together, discussing key moments related to the identified learning goal(s) of their lessons, and comparing and considering ways student understanding could have been further enhanced. *The school's approach to supporting student access and extended learning opportunities is a model for other schools in the state.*

MOT Charter School leaders are among the most forward thinking leaders I have ever had the privilege to work with during my thirty-four years as an educator in the state. They set high expectations for their faculty and students, actively involve community engagement, and have established a standard for success that speaks for itself. They continue to foster a trusting environment that embodies the school's vision and mission and empower their teachers by creating a productive climate for reflection and growth. MOT Charter School is more than worthy of having their charter renewed. ***They are an exemplar for the state!!***

Please don't hesitate to contact me should you have any questions about my support of this fine institution!

Jamila
