Public Comment: I Am a proud parent of a Met student let me say first I would like you to give a chance for the school to change At the Chase Center last year we heard a slogan the time is to act is now this is true in this case you now have a chance to turn a negative into a positive thing help this school turn things around as parents we all had a choice we chose MET dont want my child back in the public school where her school class size 40+ students per class her LTA was 60 not fair to the students to change halfway thru the school year and busing miles away to another school which they we be behind the other students that been there makes no sense to do this to our children PLEASE give this school a chance 3 months to make this recommendation is not fair all new things hit snags but they are changing the are doing amazing things there and my child is succeded and happy going to school for the first time in years we are family there dont tear our family apart and dont show the child we just push them aside when we dont like what going on show them with help things can change and the can be our future This school does have a bright future if you just give them a chance it can be a Delaware success story thank you for your time

Public Comment: I would like to commend the Delaware Met for its efforts in educating children in Wilmington, DE Closing the school at this time would be devastating to the community and damaging to the children who have developed key relationships and worked very hard. With the new interim director, re-built staff, and support of the community, this institution can achieve high academic standards. I look for the Delaware Department of Education to keep the school open and allow the school to flourish and the children to prosper.
