Hello my name is Angela Smith. I am a resident of Sussex County, Delaware and a mother of two children. One is currently in the public school system, 7th grade, and I have seen over the years where another schooling option would have served children best. My youngest will be entering Kindergarten in 2019, and she will definitely require a school with more flexibility in education methods and allow her to use her natural inquisition to learn. Sussex County is just as deserving as other counties in this state of Delaware to have numerous options and choices for educating our children. In conclusion, I am in great support of this Sussex Montessori and hope you will approve.

Thank you,
Angela Smith
