OUR STUDENTS EXPERIENCE DESIGN LEARNING

Our comprehensive Design-Learning approach develops our students in communication, collaboration, critical thinking and creativity; skills that they'll need to be successful in the global economy of the 21st century.

WE UTILIZE THE STEM^D™ CURRICULUM

Courses integrate the academic disciplines of science, technology, engineering, and mathematics – plus media and design (STEMD). Our students develop multiple literacies, including digital, visual and media literacy, as well as reading, writing and mathematics. Advanced Placement courses are offered to achieving students.

OUR APPROACH FOSTERS INNOVATION THROUGH TECHNOLOGY-ENRICHED TEACHING AND LEARNING

Students use Chromebooks to learn with apps in this one-to-one Google for Education learning environment. Technologies are used for research, instruction, and production.
