Public Comment: I am in full support of this move request for all of the reasons mentioned and more. As a city resident I appreciate the convenience of the Community Education Building and the general concept, but my 5 year old needs outdoor space to run and play all year round weather permitting. The sharing of the only indoor rec space with other schools and other classes does not give them regular recess time and they all need it! This school has been stepping up and making many changes and improvements to better the education and experience for all of the children attending and that is something I know this new space will improve.
