**Public Comment:** I am proud to attach my name and reputation to Delaware Design-Lab High School as a founding member of the Board of Directors.

I have witnessed the inordinate amount of time, attention, and dedication it has taken to launch this school. The work of the leadership team, particularly in the early months of the school's start-up, has been extraordinary. I commend them for what has been achieved with extremely limited financial resources.

I am pleased to see DDLHS's ever growing momentum and progress, and most importantly, that the school is delivering on its mission and obligation to its students.
