

2016-2017 Delaware Teacher Leader Pilot

Tentative Summer Training Dates

DOE invites all teacher leader pilot participants to share their availability for each option. Please confirm whether your school representatives could attend option 1, option 2 or both. We will aim to complete the training in one block to ensure that all participants can maximize opportunities for collaboration. In the event of a relatively even split in availability, we will run both training options. Note that while we will ultimately require no more than three days of attendance for school leaders and two days of attendance for teacher leaders within these two blocks, the specific scheduling breakdown is tentative and may be modified slightly as we work through the program plans with the PD provider.

17	18	19	20	21	22	23
24	25	26	27	28	29	30

Blue – School Leader Planning Day: School leaders will attend one planning day individually, choosing to attend Option 1 (7/5) or Option 2 (7/11)

Green – Teacher Leader and School Leader Collaborative Planning Day: School leaders and teacher leaders from the same school must attend together. Teams have the choice of attending either the Option A (7/6) or Option B (7/12) days.

Yellow – Teacher Leader Orientation Days: Teacher leaders will attend one orientation series individually or with other teacher leaders from their school (if applicable). Teacher leaders can choose to attend either the Option 1 (7/8, 7/9) or Option 2 (7/13, 7/14) days. There may be an orientation make-up session in August in the event of conflicts.

Teams/individuals can attend any combination of sessions (e.g., a teacher leader can attend the Option 1 series of orientation and the Option 2 session of the team collaborative planning).

There will additionally be one content-specific session in August (which may be virtual). The time/date of the session will be determined following school and teacher leader selection.
