Clock Hours – Level 2

The Clock Hours bar is highlighted and designated with a red X to signify that the step has not yet been completed.

As a general rule, educators are encouraged to keep their clock hours current in the DEEDS system throughout the term of the permit. In this way the educator’s data is always up to date and everything is complete and ready to go at upgrade or renewal application time.

If no Clock Hours data has been added to the system, then the Clock Hours table will be blank and a warning of No record found will be displayed in a red banner across the top of the section as shown above. The No record found message can be dismissed by clicking the x in the upper right-hand corner of the red banner. If clock hours have been added, they will appear in the Clock Hours table.
Above the Clock Hours table is a summary of the clock hours. The summary shows Verified Total Hours, Unverified Total Hours, Total Hours and Accepted Hours. Verified Total Hours are hours that have been checked and verified by the L&C team. Conversely, Unverified Total Hours are hours that have been entered by the educator, but not yet checked and verified by the L&C team. Total Hours are the summation of the Verified Total Hours and Unverified Total Hours values. Lastly, Accepted Hours are hours that have been accepted by the L&C team toward the 25 clock hours requirement for upgrading from a Groves Level 1 permit to a Groves Level 2 permit.

If additional clock hours are not needed, click the Save & Next button to continue and skip to the next step. Otherwise, follow the instructions in this section to Add Clock Hours information.

Figure GA2-CLH-02: Groves Level 2 Add Clock Hours Form

Clock Hours form is presented for entering clock hours related to the upgrade application request. The top section is for entering information specific to characterization of the clock hours and the bottom section is for uploading supporting documentation for the clock hours earned.

Complete the required fields in the top section. The required fields are designated with a red * and include: Category/Option, Title/Description, Begin Date, Completed Date and Hours. A dropdown list is provided for selection of the predefined Category/Option options. Begin Date and Completed Date need to be entered in MM/DD/YYYY format.

When entering clock hours data, one of the most important things to note is the date range for the clock hours, which are entered in the Begin Date and Completed Date fields. Clock hours need to be earned within the term of the Groves Level 1 permit. If clock hours are either before the Begin Date or after the Completed Date, then they are not considered valid for the upgrade application.

Click the down arrow of the Document Type dropdown list in the bottom section and select Clock Hours as the document type from the list. The next step is to upload documentation in the form of a pdf or image document. This can be done by uploading a new document or associating a document that has already been uploaded to the system.
There may be instances where clock hours documents have already been uploaded to the system. If a document has already been uploaded, then there is no reason to upload it again. In this case, the proper action is to **Associate** the document, meaning that the pre-loaded document will be used.

To Associate a document, click the **Associate Existing Documents** button. An **Associate Documents** popup window is displayed for selection of the document to be associated. The documents shown are those that have been added to the system for the educator. Select the document by clicking inside the checkbox associated with the desired entry. A check will appear in the checkbox to indicate that the document is selected. Click the **Select Documents to Associate** button to save the information or the **Cancel** button to exit the operation without saving data. If necessary, refer to the **Associate Document** section for a detailed description of how to associate a document.

If the **Clock Hours** document has not been associated, then follow the next steps to upload the document for the adult education permit application.

Select the file to be uploaded in one of two ways:

- Drag the file from your computer to the middle of the area designated with the text: **Drop file here to upload or click here to browse and select file to upload.**
- Click inside the area designated with the text: **Drop file here to upload or click here to browse and select file to upload.**
  - File Explorer is opened to allow document to be selected from computer files.
  - Select the desired file and Click **Open**.

File name is displayed along with a trash bin icon on the right. If the file selected is not the correct file, click on the trash icon bin to delete it.

Click the **Save** button to upload the document and save **Clock Hours** data.

New **Clock Hours** information entered is displayed in the clock hours summary and associated table at the bottom of the **Clock Hours** section. Note that the **Unverified Total Hours** and **Total Hours** values have been updated to reflect the new data entered.

![Figure GA3-CLH-06: Groves Level 2 Clock Hours Summary and Table](image)

If the information is incorrect or incomplete, click the pencil icon in the **Actions** column to edit the information, as appropriate.

Continue to **add Clock Hours** until the 25 clock hours requirement for the upgrade to James H. Groves Level 2 application has been satisfied.

Click the **Save & Next** button.

The electronic signature, which is legally binding, signifies that the Educator acknowledges and affirms the above statement which is made under penalty of perjury. The **I consent to electronic signature** checkbox is a mandatory field and must be checked to continue.

Sign the affirmation by typing your name in the **Signature** field. The **Date** field is auto-populated with the current date and is a read-only field.

Note that **Permit** appears in the Credential Definition column and shows a status of **Application Pending**.

Once the **Groves HS Administrator Permit** application has been submitted, the application is directed to the DDOE Licensure & Certification (L&C) team for review and approval.
From this point forward, all communication is done through this View My Applications page on the Educator Dashboard. The Educator can monitor status and respond to deficiencies, as raised by the DDOE L&C team.

For the James H. Groves Adult High School, Level 3 (Administrator) Permit application, deficiencies are handled in exactly the same way as they were handled for the James H. Groves Adult High School, Level 1 Permit application. When a deficiency is raised by the DDOE L&C team, the Educator must Respond to the Deficiency and Resubmit the application for further review and approval. To review the process for responding to deficiencies, refer to the Deficiencies section of this document. Within the instructions and screen shots, simply substitute Level 3 wherever Level 1 is listed.
