Clock Hours – ABE Level 2 Upgrade

The Clock Hours bar is highlighted and designated with a red X to signify that the step has not yet been completed.

As a general rule, educators are encouraged to keep their clock hours current in the DEEDS system throughout the term of the permit. In this way the educator’s data is always up to date and everything is complete and ready to go at upgrade or renewal application time.

If no Clock Hours data has been added to the system, then the Clock Hours table will be blank and a warning of No record found will be displayed in a red banner across the top of the section as shown
above. The No record found message can be dismissed by clicking the x in the upper right-hand corner of the red banner. If clock hours have been added, they will appear in the Clock Hours table.

Above the Clock Hours table is a summary of the clock hours. The summary shows Verified Total Hours, Unverified Total Hours, Total Hours and Accepted Hours. Verified Total Hours are hours that have been checked and verified by the L&C team. Conversely, Unverified Total Hours are hours that have been entered by the educator, but not yet checked and verified by the L&C team. Total Hours are the summation of the Verified Total Hours and Unverified Total Hours values. Lastly, Accepted Hours are hours that have been accepted by the L&C team toward the 25 clock hours requirement for upgrading from an ABE Level 1 permit to an ABE Level 2 permit.

If additional clock hours are not needed, click Save & Next to continue and skip to the next step. Otherwise, follow the instructions in this section to Add Clock Hours information.

A dropdown list is provided for selection of the predefined Category/Option options. Begin Date and Completed Date need to be entered in MM/DD/YYYY format.

To Associate a document, click the **Associate Existing Documents** button. An **Associate Documents** popup window is displayed for selection of the document to be associated. The documents shown are those that have been added to the system for the educator. Select the document by clicking inside the checkbox associated with the desired entry. Click the **Select Documents to Associate** button to save the information or the **Cancel** button to exit the operation without saving data. If necessary, refer to the **Associate Document** section for a detailed description of the how to associate a document.

The date that the deficiency was raised is shown in the **Date** column. Read the **Notes** to determine how to fix the problem and ensure that the required action can be achieved at the current time. The user will need to supply additional information and/or evidence specific to the issue raised within the deficiency.

Click **Respond to Deficiency** button.

Educator is directed to the section of the application where there is a deficiency. The green bar is designated with a red x to indicate that the issue is unresolved. Attention will be focused on the **Deficiency** section at the bottom.
In the **Educator Notes** field, enter information related to corrective measures that have been taken to address the deficiency raised. Check the **Resolved** checkbox to indicate that the deficiency has been resolved. Note that when the **Resolved** checkbox is checked, the green bar icon changes to a green V to indicate that the required action is complete.

**Click** **Save Changes** button within the **Deficiency** box.

**Click** the **Resubmit** button at the bottom of the page.

Note that the color of the **Intake** banner has changed to yellow and the status has changed to **In Progress**. This status has changed because the deficiency has been addressed and the application has been put back into the Intake queue for review by the DDOE L&C team.

Once the deficiencies, if raised, have been resolved and the application has been approved by the DDOE L&C team, the information on the **View My Applications** page will change to:

**Print Certificate**

Once the license or permit has been renewed, a certificate can be printed. From the **Educator Dashboard**, click either the **Print My Credentials** button or the **View My Credentials** button on the right side of the page. Either option will direct you to the **Credentials** tab of the educator data. At the top of the page is a **Print and Download Credentials** section:

Click the down arrow of the **Select a License** dropdown list.

![Figure UPG-PC-02: Upgrade Application Print Credentials License Options](image)
The list of options displayed is limited to the credentials that have been issued to the educator. Select the option corresponding to the upgrade that has been issued. In this example, the option is for a **Continuing License**. Click the down arrow to the right of the **Select a Document Type** dropdown list.

The list of **Document Type** options displayed is limited to the certificates that can be printed for the credential selected in the **Select a License** list. Select the **Wall Certificate for L&C** option from the list.

When both options have been specified, the **Generate** button is enabled. Click the **Generate** button. A pdf version of the certificate is downloaded to the **Downloads** folder of the educator’s computer. Go to the Downloads folder and locate newly generated credential file. Open pdf file to view contents:

A wall certificate of the certificate chosen, suitable for framing, has been downloaded to the educator computer. In this example, the certificate generated is for a **Continuing License**.

During the credential selection process described above, a number appeared in the **Select a License** dropdown list next to the license name, in this example: **Continuing License – 234730**.
This number associated with the license is the identification number of the credential issued to the educator. Note that the **K-12 Licenses** table on the View My Credentials page lists **234730** in the Credential No column, which corresponds with the credential selected for printing.

**Associate Document**

When a document needs to be provided, the document can either be uploaded or associated. There may be instances where documents have already been uploaded to the system for the educator. If a document has already been uploaded, then there is no reason to upload it again. In this case, the proper action is to **Associate** the document, meaning that the pre-loaded document will be used. To Associate a document, click the **Associate Existing Documents** button.

An **Associate Documents** popup window is displayed for selection of the document to be associated. The documents shown are those that have been added to the system for the educator. Note that the **Select Documents to Associate** button is disabled because nothing has been selected.

Select the document by clicking inside the checkbox associated with the desired entry. A check will appear in the checkbox to indicate that the document is selected. The field acts as a toggle and will check and uncheck each time it is clicked. As soon as a document is selected, the **Select Documents to Associate** button is enabled. If the desired document does not appear in the table of documents, simply click the **Cancel** button to dismiss the **Associate Documents** window and follow steps to **Upload Document**.
Click the **Select Documents to Associate** button to save the information or the **Cancel** button to exit the operation without saving data. Either will dismiss the **Associate Documents** popup window. If the **Select Documents to Associate** button is selected, then the document appears in the document upload area.

**Upload Document**

When a document needs to be provided, the document can either be uploaded or associated. If the document has already been loaded in DEEDS, then the correct action is to associate the document.
