

Roster Verification System (RVS)

At-A-Glance
February 2018

Delaware
Department of Education

Frequently Asked Questions

What is RVS?

The Roster Verification System (RVS) is an online system (inside of IMS) that allows Delaware's Group 1 teachers and administrators the opportunity to complete an automated web-based roster verification process for one measure of their Component V educator evaluation rating (Measure A for teachers; Part A for administrators). Roster verification ensures that all students who should be considered for the educator's evaluation are present on his or her roster.

Who needs to complete RVS?

While school leaders conduct some form of roster verification with all educators as part of Component V, only Group 1 teachers and administrators who receive a Part A: Statewide Student Growth Measures rating utilize the state's RVS system. A Group 1 teacher includes any educator who instructs ELA and/or mathematics for at least 10 students in grades four (4) through eight (8). Administrators receive a Part A rating if they are responsible for 20 or more students taking the state assessment.

Frequently Asked Questions

What is the RVS timeline?

- On February 9, 2018 rosters will be loaded into RVS from eSchoolPLUS
- February 12 - March 16, 2018 LEAs may review RVS rosters ahead of the official RVS opening
- On March 19, 2018 RVS will open for Group 1 teachers, administrators, and evaluators to verify rosters
- On April 13, 2018 RVS will close for teachers
- On May 31, 2018 RVS will close for administrators/evaluators

Where can I find technical assistance?

Technical assistance (including how-to manuals and contact information) are available on the RVS webpage of the DDOE website: <https://www.doe.k12.de.us/Page/2088>

Two Phases Of RVS: Before/During & After Student Assessment

Before/During Student Assessment	After Student Scores Are Returned
Group 1 Teachers: <ul style="list-style-type: none">- Review and submit rosters	Group 1 Teachers: <ul style="list-style-type: none">- Review Measure A report
Administrators: <ul style="list-style-type: none">- Build rosters from approved teacher or administrator rosters	Administrators: <ul style="list-style-type: none">- Review Measure A report
Evaluators (of teachers and administrators): <ul style="list-style-type: none">- Ensure all Group 1 teachers are present with the correct subject(s) identified inside of RVS before the system opens for teachers- Review and approve rosters	Evaluators: <ul style="list-style-type: none">- Review Measure A report- Determine discretion (if applicable)- Submit appeals for students who remained on roster but should not have

Reports

March 19 – April 13, 2018

Late Spring – Fall 2018*

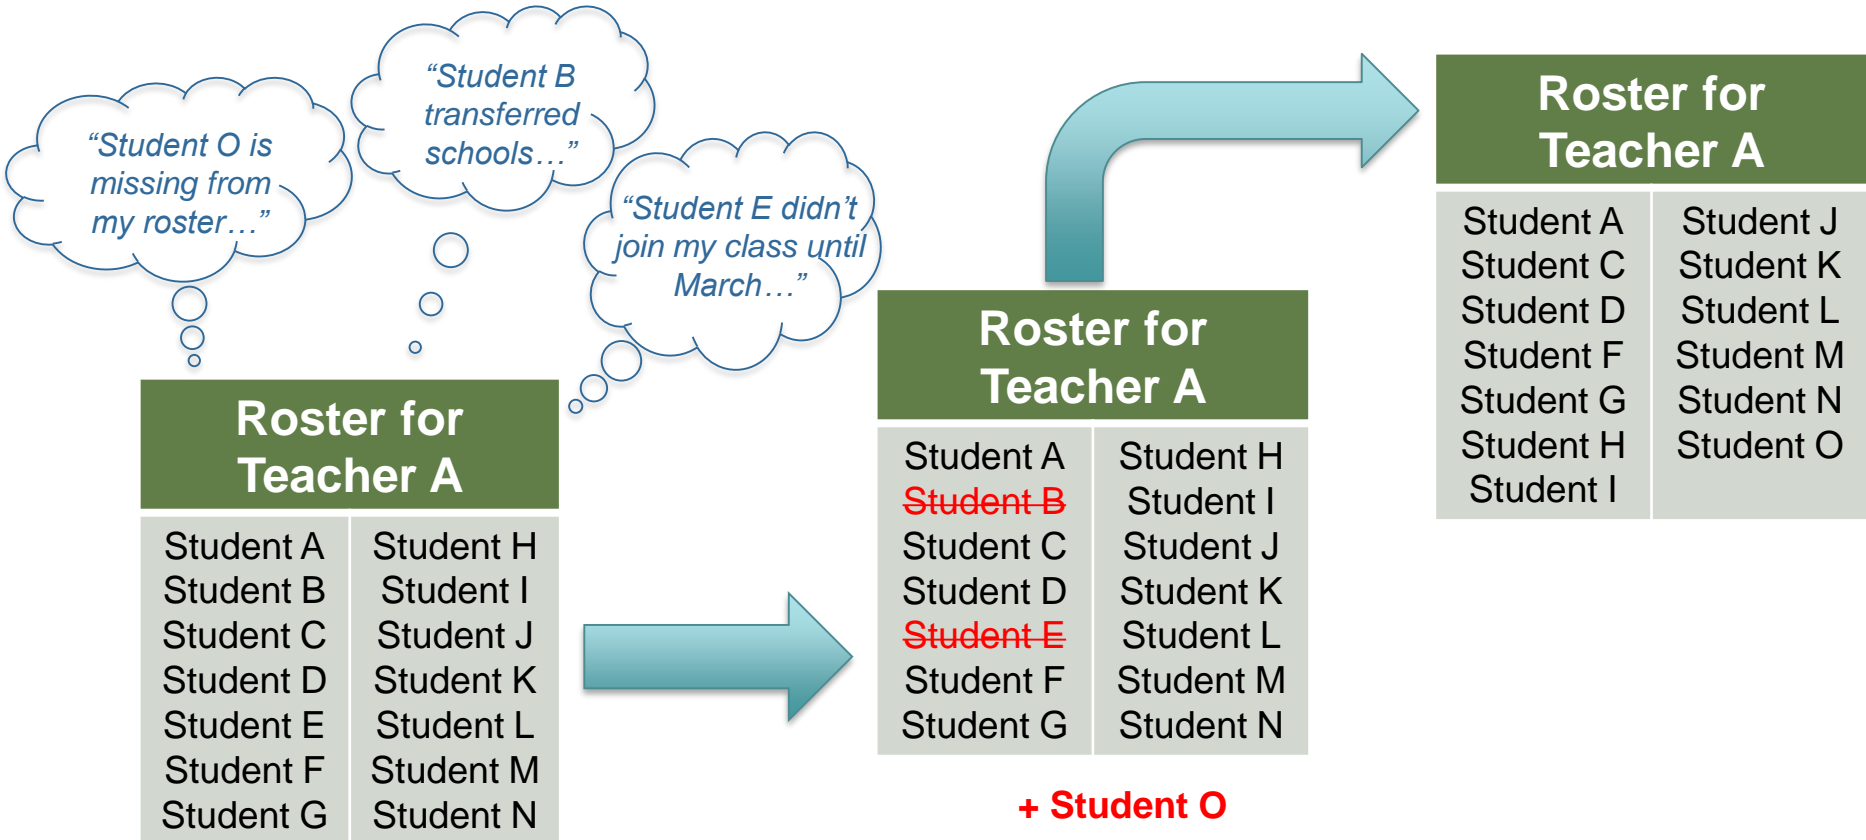

** RVS Measure A Reports become complete when all student assessment scores on a given roster have been returned from the assessment vendor. The date at which an RVS Measure A Report will become complete will vary for each educator.*

Step 0: Rosters Loaded into RVS

Early in each calendar year, rosters are loaded into RVS by reconciling data provided by eSchoolPLUS, PHRST, and Data Service Center's (DSC) DPAS application. Districts and schools have the opportunity to ensure that every educator who should have a roster (or rosters) does before RVS opens. These reports can be accessed in RVS by running the *School or District ERS Assignment Structure* report (identifying Group 1 teachers) and the *RVS Rosters with Student Counts by District or School* report (displays student counts on ELA and/or math rosters).

Step 1: Teachers Review and Submit Rosters for Evaluator Approval

Group 1 teachers review their rosters inside of RVS to ensure that all students who should be on the roster are accounted for. Teachers may request to have students removed from the roster for a limited number of reasons including if a student has missed more than 15% of class time or if a student transferred schools. Should a student need to be added, an evaluator must make this request on the teacher's behalf.

Step 2: Evaluators Approve Teacher Rosters

Roster for Teacher A

Student A	Student J
Student C	Student K
Student D	Student L
Student F	Student M
Student G	Student N
Student H	Student O
Student I	

Roster for Teacher B

Student P	Student W
Student Q	Student X
Student R	Student Y
Student S	Student Z
Student T	Student AA
Student U	Student BB
Student V	Student CC

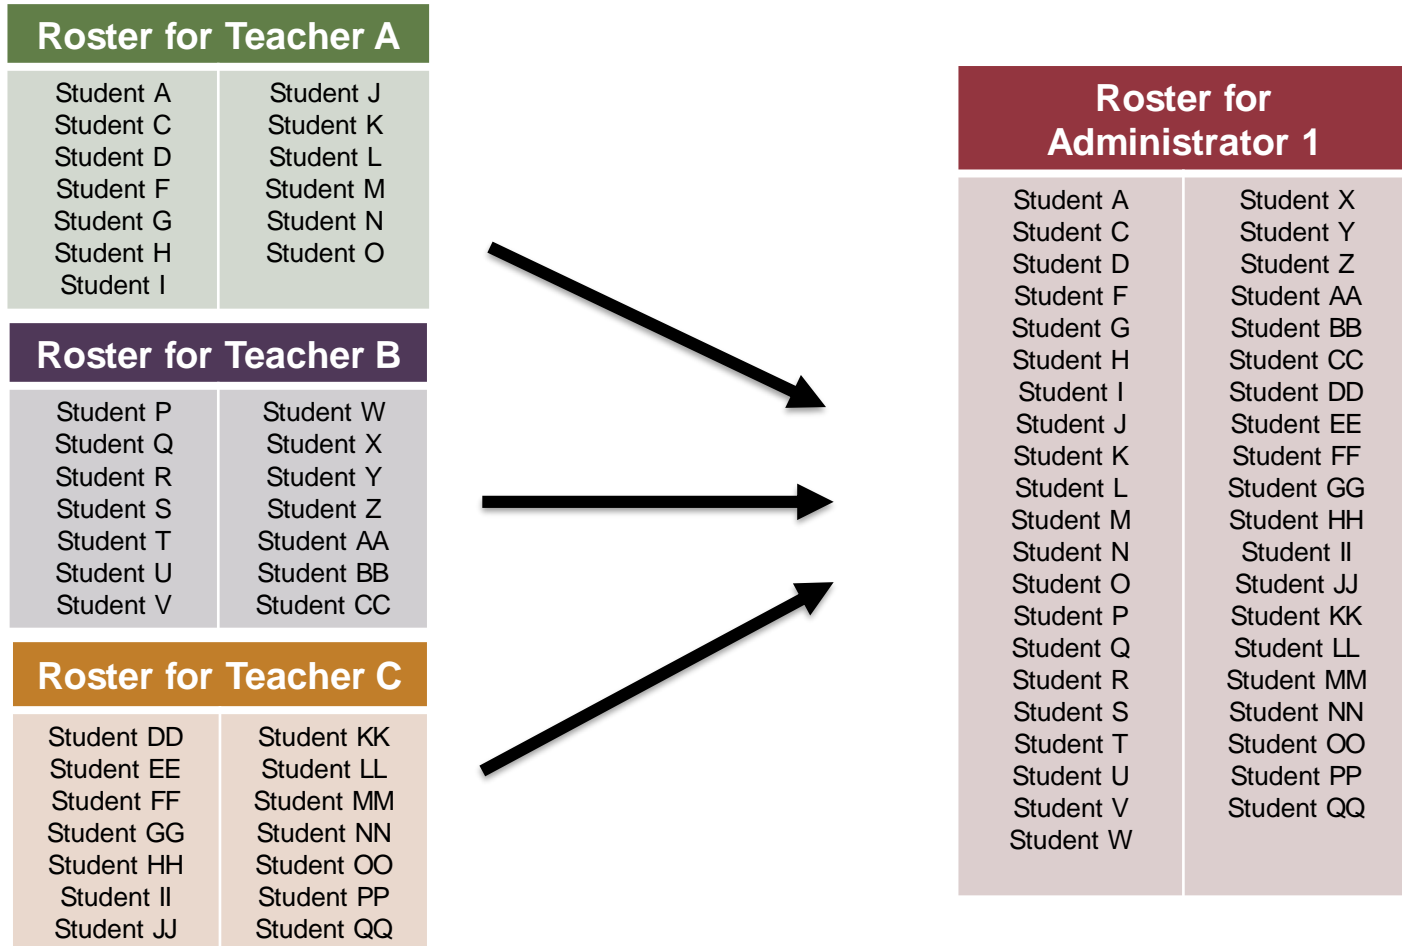

Roster for Teacher C

Student DD	Student KK
Student EE	Student LL
Student FF	Student MM
Student GG	Student NN
Student HH	Student OO
Student II	Student PP
Student JJ	Student QQ

Evaluators review the rosters that teachers have submitted inside of RVS. Evaluators must approve these rosters in order to finalize the RVS process for their teachers.

Step 3: Administrators Build Rosters from Approved Teacher Rosters

Administrators who receive a Part A: Statewide Student Growth Measures rating on their evaluation build their rosters inside of RVS using approved teacher rosters. Administrators may add students that teachers have excluded.

Step 4: Evaluators Approve Administrator Rosters

Roster for Administrator 1	
Student A	Student X
Student C	Student Y
Student D	Student Z
Student F	Student AA
Student G	Student BB
Student H	Student CC
Student I	Student DD
Student J	Student EE

Student CO	Student CIJ
Student CP	Student CKK
Student CQ	Student CLL
Student CR	Student CMM
Student CS	Student CNN
Student CT	Student COO
Student CU	Student CPP
Student CV	Student CQQ

Evaluators (supervisory administrators) review the rosters that administrators have submitted inside of RVS. Evaluators must approve these rosters in order to finalize the RVS process for their administrators.

Cascading Administrator Approvals

Administrator RVS occurs in a cascading fashion. In order for a district administrator to build a roster for their Part A component, all of the principals the individual oversees must complete RVS. In order for a principal to complete RVS, all of the assistant principals the individual oversees must complete RVS by building rosters for approval. Therefore, it is not possible for a superintendent to complete RVS until all other administrator rosters in the district have been approved. **It is recommended that districts and charter schools set internal deadlines in order for final district administrator approval to take place before the deadline.**

Step 5: Review Measure A or Part A Reports

DPAS-II Student Improvement Component Measure A Report

Date Created: 7/11/2017

Last Updated: 7/11/2017

TEACHER NAME:

EMPLOYEE ID:

GRADE: 7

SUBJECT: ELA

SCHOOL YEAR: 2016-17

DISTRICT: APPOQUINIMINK SCHOOL DISTRICT

SCHOOL: WATERS (ALFRED G.) MIDDLE SCHOOL

The Student Improvement Component Measure A rating herein is based on student performance on the state assessment and is applicable only to Group 1 Educators in the school year specified above.

TOTAL NUMBER OF STUDENT GROWTH TARGETS* MET: 61

TOTAL NUMBER OF STUDENT GROWTH TARGETS*: 108

PERCENT OF STUDENT GROWTH TARGETS* MET: 56 %

MEASURE A RATING:

SATISFACTORY

VERIFIED ROSTER DETAILS:

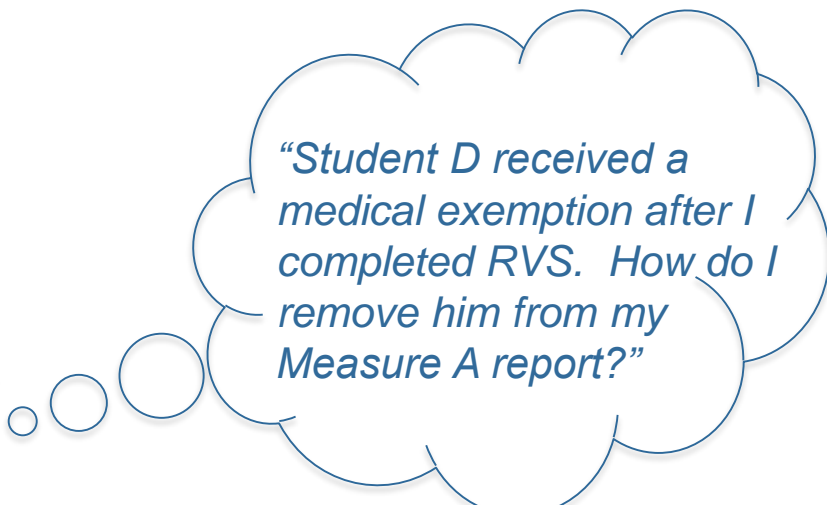

Student ID	Student Name	SWD Status	ELL Status	Subject	Target Score*	Actual Spring Score	Was the Target Met?
		No	No	ELA	2562	2474	NOTMET
		No	No	ELA	2661	2700	MET

RVS Measure A Reports become complete when all student assessment scores on a given roster have been returned from the assessment vendor. The date at which an RVS Measure A Report will become complete will vary for each educator. In the interim, the bottom of the report (where student-level scores are present) will begin to populate as results are returned. The top of the report (the rating and statement of how many students met their growth targets) will not populate until all scores are returned.

- Evaluators should not finalize the rating for an educator until all scores are present.
- Evaluators should not attempt to approximate scores or ratings using DSARA (Delaware Student Assessment Reporting & Analysis).
- Should a school reset or reopen the assessment for a student, it is possible for a student's score to change (target met or not met) and subsequently impact a teacher's overall Measure A rating. Administrators should only finalize Measure A ratings after they have ensured there are no pending student assessment resets or reopens.

Roster Verification System Appeals

Teacher A Measure A Report	
Student A	NOTMET
Student B	MET
Student C	MET
Student D	NOSCORE
Student E	MET
Student F	MET
Student G	NOTMET
Student H	MET
Student I	MET

“Student D received a medical exemption after I completed RVS. How do I remove him from my Measure A report?”

Should an educator want to appeal his or her Measure A rating based on a roster inclusion or exclusion error, there is a form inside of RVS that allows he or she to do so. Appeals must be originated by the evaluator. DOE reserves the right to request supporting documentation for any RVS roster appeal. Appeals should only be submitted if a decision will change an educator’s overall Student Improvement Component rating.

Tips and Reminders

Before/During Student Assessment

- The goal is to validate lists of students educators instruct, per subject.
- All data must be complete and accurate in the district or charter school's educator evaluation system online platform (DSC's DPAS application) and in eSchoolPLUS for RVS to accurately use the information. Complete and accurate data includes PHRST employee ID for both the educator and the evaluator, educator group number, District Code, School Code, and subject taught (mathematics and/or ELA). If any of these pieces of information are incomplete, missing, or not recognized as valid by RVS, it will ignore the data to ensure bad or incorrect mappings do not occur.
- Building administrators should ensure that all educators who should have a roster (or rosters) does before RVS opens.
- It is recommended that districts and charter schools set internal deadlines for different administrator types in order for final district administrator approval to take place before the May 31st deadline.

Tips and Reminders

After Student Scores are Returned

- RVS Measure A (or Part A) Reports become complete when all student assessment scores on a given roster have been returned from the assessment vendor. The date at which an RVS Measure A Report will become complete will vary for each educator.
- Evaluators should not finalize the Measure A or Part A rating for an educator until all scores are present.
- Evaluators should not attempt to approximate scores or ratings using DSARA (Delaware Student Assessment Reporting & Analysis).
- Should a school reset or reopen the assessment for a student, it is possible for a student's score to change (target met or not met) and subsequently impact a teacher's overall Measure A rating. Administrators should only finalize Measure A ratings after they have ensured that there are no pending student assessment resets or reopens.
