Opportunity Funding
Directed Funds for English Learners and Low-Income Students

Application deadline: June 30, 2021

Purpose: The three-year Opportunity Funding initiative led to legislation that now guarantees weighted funding through FY25.

Allocation Method: Local education agencies (LEAs) will receive \$600 per English learner (EL) and \$524.25 per low-income (LI) student. Funding shall be made available to LEAs upon the passage of the FY22 budget so that in early July LEAs may begin to hire staff, procure instructional materials, execute contracts for services, and plan for the upcoming school year. LEAs may use this funding for 100 percent of staff costs, including, but not limited to, reading specialists, math specialists, school counselors, school social workers, school psychologists, and other personnel dedicated to initiatives such as trauma-informed practices.

Accountability: LEAs will be held accountable to ensure funds are used to improve outcomes for low income and EL students. Districts and charters will work with Secretary Bunting to set goals at the beginning of the school year, participate in a mid-year progress review, and then evaluate summative performance data during their end of school year conference. Community accountability will be provided in a summit to highlight best practices, in an annual report, and in spotlights showing program successes and challenges across the state.

Metrics: Districts and charters will set goals to reduce the gap between EL students', low-income students', and the overall student population's baseline performance rates and 100 percent by half, thus reducing students' non-proficiency by 50 percent.

In addition to the accountability measure data, the Delaware Department of Education (DDOE) will provide support by offering

- Toolkits on evidence-based best practices for improving outcomes for EL and low-income students.
- Guidance for selecting high quality instructional materials.
- Technical support enabling LEAs to take a comprehensive look at their funding streams in order to maximize and coordinate them.
- Professional learning provided by content experts.
- Sharing best practices in a variety of ways including regular meetings with curriculum directors, chiefs/principals, social media and presentations.

DDOE will use a third party to also evaluate

- The effectiveness of funds in improving outcomes for EL and low-income students.
- The successes and challenges/shortcomings of the program, including recommendations for future enhancements.

Overall Summary

Provide an overall summary of how the Opportunity Funding will be used to improve outcomes for English learners and low-income students in your district or charter school.

Include an explanation of how the work will impact each target population as well as the rationale for selecting the plan.

<p>First State Montessori Academy is committed to providing additional support for our EL and LI students. Knowing we must add additional programs and supports to ensure all students have what they need for success, FSMA is continuing our services provided by a Reading Specialist. This staff member will focus on student needs and we believe can raise the academic achievement for LI students. We recognize that our LI students need additional support and resources as well. Having this staff member work specifically with Kindergarten and 1st grade students who are struggling will have an impact as we know that we must focus on early intervention in order to effectively close achievement gaps, specifically in reading.</p>
