

DELAWARE EDUCATORS & SCHOOL STAFF PHASE 1B

The Delaware Department of Education (DDOE) will be providing multiple vaccination opportunities for Delaware educators and school staff of K-12 public and private schools as well as district early learning centers across the state.*

DDOE will be following a staged roll-out over the next few months. Communication related to the availability, location and registration of each event will be shared as they are scheduled.

Drive-thru Clinics

DDOE will be partnering with the Division of Public Health to participate in drive-thru COVID-19 vaccination clinics.

On-Site at Schools

DDOE is working with Acme/Safeway Pharmacies to provide on-site vaccination events at various schools across the state. School sites will be centrally located and available for staff from all K-12 districts, charters, and private schools as well as district early learning centers to attend.

Pharmacies

DDOE will work with Acme/Safeway Pharmacies to identify pharmacies in each of the three counties that will be available for individual appointments for educators and school staff.

**Individuals are encouraged to take advantage of any other venues available such as local health care providers, additional pharmacies, and through affiliations with other organizations allocated vaccine for distribution.*

Additional information and regular updates will be posted to DDOE's COVID-19 Vaccination Site: de.gov/k12vaccine
