Honorable Dr. Susan Bunting
Secretary of Education
Delaware Department of Education
401 Federal Street, #2
Dover, Delaware 19901

Dear Secretary Bunting:

We have approved Delaware's grant application for Federal fiscal year (FFY) 2021 funds under Part B of the Individuals with Disabilities Education Act (IDEA Part B). Our approval is based on our review of the IDEA Part B grant application submitted by the Delaware Department of Education to the U.S. Department of Education (Department), Office of Special Education Programs (OSEP), on May 10, 2021, including the assurances provided in Section II and incorporated by reference to this letter as noted in Enclosure A. Our approval is also based on the State's certification in Section II.D of its FFY 2021 IDEA Part B grant application (Enclosure B), signed by you on April 22, 2021, that the State's provisions meet the requirements of IDEA Part B as found in Public Law 108-446, and that the State will operate its Part B program in accordance with all of the required assurances and certifications, consistent with 34 C.F.R. § 76.104.

Please note that OSEP Memorandum 21-01, dated January 21, 2021, explained the impact of recent amendments to the Copyright Act, 17 U.S.C. § 121, on certain terms relevant to Assurance 23a or 23b related to accessible instructional materials as reflected in your State's FFY 2021 application for funds under IDEA Part B. As a result, the term "blind and other persons with print disabilities" has been removed from the Copyright Act and replaced with "eligible person," and the term "specialized format" has been removed and replaced with the term "accessible format." Although at this time Congress has not made conforming amendments to Section 612(a)(23) of IDEA, the Department construes Assurances 23a and 23b as incorporating the terms "eligible person" and "accessible format."

Please note that as part of your State's grant application for FFY 2021 IDEA Part B funds, your State has provided a certification, pursuant to 34 C.F.R. § 76.104, that its application meets the requirements of IDEA Part B and that the State will operate its Part B program in accordance with all of the required assurances and certifications. Any changes made by the State, after OSEP approval, to information that is a part of a State's IDEA Part B grant application, must meet the public participation requirements in 34 C.F.R. § 300.165.

Enclosed are two separate grant award notification (GAN) documents. The first GAN represents the State's FFY 2021 IDEA Part B Section 611 (Grants to States) and Section 619 (Preschool Grants) grant award for funds currently available under the Consolidated Appropriations Act, 2021 (Public Law 116-260) (CAA). The second GAN represents the State's grant award for IDEA Part B (Section 611 and Section 619) funds under Section 2014 of the American Rescue

Plan Act of 2021 (Public Law 117-02) (ARP). Both grant awards are subject to all the terms and conditions of the State’s FFY 2021 IDEA Part B grant application. The funds under both of these grant awards are available for obligation by States from July 1, 2021 through September 30, 2023, in accordance with 34 C.F.R. § 76.709.

The amounts of Section 619 funds shown in both grant awards represent the full amount of Section 619 funds to which your State is entitled under the CAA and the ARP. In addition, the amount of Section 611 funds shown in your State’s ARP IDEA Part B grant award represents the full amount of Section 611 funds to which your State is entitled under the ARP. However, the amount of Section 611 funds shown in your State’s CAA FFY 2021 IDEA Part B grant award is only part of the total Section 611 funds that will be awarded to your State under the CAA for FFY 2021. Of the \$12,937,457,000 appropriated for Section 611 in FFY 2021 under the CAA, \$3,654,074,000 is available for awards on July 1, 2021, and \$9,283,383,000 will be available for awards on October 1, 2021. Under the Section 611 formula, in a year in which the amount available for allocations to States increases from the prior year, subject to certain maximum and minimum funding requirements, State allocations are based on the amount that each State received under Section 611 for FFY 1999, the relative population of children in the age range for which each State ensures the availability of a free appropriate public education (FAPE) to children with disabilities, and the relative population of children living in poverty in the age range for which each State ensures the availability of FAPE to children with disabilities.¹

For FFY 2021, the appropriation for the Preschool Grants program is \$597,620,000. Under the Section 619 formula in a year in which the amount available for allocations to States remains the same or increases from the prior year, State allocations, subject to certain maximum and minimum funding requirements, are based on the amount that each State received under Section 619 for FFY 1997, the relative population of children aged three through five, and the relative population of all children aged three through five living in poverty.

Enclosure C provides a short description of how Section 611 funds were allocated and how those funds can be used. In addition, Table I in Enclosure C shows funding levels for distribution of Section 611 funds and the parameters for within-State allocations.

Enclosure D provides a short description of how Section 619 funds were allocated and how those funds can be used. In addition, Table II in Enclosure D shows State-by-State funding levels for distribution of Section 619 funds.

Section 611(e)(1)(C) of the IDEA provides that “[p]rior to expenditure of funds under this paragraph [Section 611(e)(1) concerning funds for State administration], the State shall certify to the Secretary that the arrangements to establish responsibility for services pursuant to [S]ection 612(a)(12)(A) are current.” We read this provision to mean that if a State does not have interagency agreements or other arrangements in place to establish responsibility for the provision of services, the State may not expend funds available to the State under Section

¹ The amount that a State’s allocation may increase from one year to the next is capped at the amount the State received in the prior year multiplied by the sum of 1.5 percent and the percentage increase in the total amount appropriated for Part B of IDEA from the prior year. Additionally, the maximum amount that a State may receive in any fiscal year is calculated by multiplying the number of children with disabilities ages 3 through 21 served during the 2004-2005 academic year in that State by 40 percent of the annual per pupil expenditure (APPE), adjusted by the rate of annual change in the sum of 85 percent of the children aged 3 through 21 for whom that State ensures the availability of FAPE and 15 percent of the children living in poverty. Because there are multiple caps, in any year the “effective cap” on a State’s allocation is the lowest cap for that State.

611(e)(1) [State administration funds] until the State has these agreements or arrangements in place.

Under IDEA Section 605, the Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (OMB Uniform Guidance) in 2 C.F.R. Part 200, and 34 C.F.R. § 300.718, States must request prior approval from OSEP for certain State-level activities or expenses. On October 29, 2019, the Office of Special Education and Rehabilitative Services released a Frequently Asked Questions document (2019 FAQs) on prior approval.² The State did not submit a prior approval request with its grant application. If the State plans to use its FFY 2021 IDEA Part B grant funds for such costs, and those costs fall outside of the scope of the 2019 FAQs, it must submit a request for prior approval to which OSEP will respond separate from the grant letter.

Under Section 608(a)(2) of the IDEA, each State that receives funds under IDEA Part B is required to inform, in writing, local educational agencies located in the State of any State-imposed rule, regulation, or policy that is not required by IDEA or Federal regulations. A State may use the same list of State-imposed rules, regulations, and policies that it was required to submit to the Department in Section IV of its IDEA Part B application for this purpose.

In Section V.A of its IDEA Part B grant application, pursuant to the authority in IDEA Section 618(a)(3), the State was required to submit data on the total amount of State financial support made available for special education and related services for children with disabilities in State fiscal year (SFY) 2019 and SFY 2020. If OSEP receives information through audits, fiscal monitoring or other means that raises questions about the data your State has provided in Section V.A, OSEP will follow up with your State.

Section 604 of the IDEA provides that “[a] State shall not be immune under the 11th amendment to the Constitution of the United States from suit in Federal court for a violation of this [Act].” Section 606 provides that each recipient of assistance under the IDEA make positive efforts to employ and advance in employment qualified individuals with disabilities in programs assisted under the IDEA. Therefore, by accepting this grant, your State is expressly agreeing as a condition of IDEA funding to a waiver of Eleventh Amendment immunity and to ensuring that positive efforts are made to employ and advance employment of qualified individuals with disabilities in programs assisted under the IDEA.

The enclosed grant awards are made with the continued understanding that this Office may, from time to time, require clarification of information within your application, if necessary. These inquiries may be necessary to allow us to appropriately carry out our administrative responsibilities related to IDEA Part B.

As a reminder, all prime recipients of IDEA Part B funds must report subaward information as required by the Federal Funding Accountability and Transparency Act of 2006 (FFATA), as

²Prior approval must be obtained under IDEA for the following direct costs: (1) equipment (defined generally as \$5,000 or more per item of equipment) (2 C.F.R. § 200.1 and 34 C.F.R. § 300.718); (2) participant support costs (such as training or travel costs for non-employees) (2 C.F.R. § 200.1); and (3) construction or alteration of facilities (34 C.F.R. § 300.718). Under the 2019 FAQs, OSERS granted prior approval for participant support costs under IDEA that: are associated with State Advisory Panels; are incurred during the provision of services under IDEA; do not exceed \$5000 per individual participant per training/conference; and are incurred by local educational agencies under IDEA Part B. In addition, the 2019 FAQs provide prior approval for equipment that is identified on or directly related to the implementation of an individualized education program for youth and children with disabilities.

amended in 2008. First-tier subaward information must be reported by the end of the following month from when the award was made or obligated. FFATA guidance is found at <https://www.fsrs.gov/>. Please contact your State’s Fiscal Accountability Facilitator if you have further questions.

We appreciate your ongoing commitment to the provision of quality educational services to children with disabilities.

Sincerely,

David Cantrell, Ph.D.

(20 U.S.C. 1411(e)(1)-(3), (6) and (7)) The Department annually identifies for States the maximum amounts that a State may retain under Section 1411(e)(1) and (2).¹ The dollar amounts listed in the **Excel Interactive Spreadsheet** by the State for administration and for other State activities should add up to less or equal to the dollar amount provided to the State by the Department for each of these activities.

The Delaware Department of Education's State Director for Special Education presented the FFY2021 IDEA Part B application, including all the assurances, Significant Disproportionality formula, Maintenance of State Financial Support, proposed activities, budget, and expenditures of IDEA funds, including High Needs Funds, to many stakeholder groups for their input during the months of February and March 2021. These groups included the Governor's Advisory Council for Exceptional Citizens (State Advisory Council for Special Education), State Special Education Leadership Group, and individually to County and Charter Special Education LEA directors. At the conclusion of each presentation, input was sought with the expectation that each person had 60 days to comment on the assurances, proposed activities, budget and expenditures of funds. In addition, the FFY2021 IDEA Part B application was posted on the Delaware Department of Education website and a notice was placed in two newspapers for a 60 day comment period from the public. Three public meetings were scheduled and held, virtually, during the month of February 2021, to seek further input from the community.

Section IV

State Administration

Section 608(a) of the IDEA requires each State that receives funds under this title to:

- (1) ensure that any State rules, regulations, and policies relating to this title conform to the purposes of this title;
- (2) identify in writing to local educational agencies located in the State and the Secretary any such rule, regulation, or policy as a State-imposed requirement that is not required by this title and Federal regulations; and
- (3) minimize the number of rules, regulations, and policies to which the local educational agencies and schools located in the State are subject under this title.

States must attach to this application a list identifying any rule, regulation, or policy that is State-imposed (not required by IDEA or Federal regulations). If there are no such State-imposed rules, regulations, or policies, please so indicate. In addition, the State is required to inform local educational agencies in writing of such State-imposed rules, regulations or policies. (20 U.S.C. 1407(a); 34 CFR § 300.199)

See attached document: Delaware's FFY 2021 Regulation Chart

Each proposed regulation was registered for a 60 day comment period and public meetings were held before State Board of Education approval and regulation going into effect. In addition, presentations to LEAs were conducted and LEAs were informed in writing of such code/regulations changes or additions.

Section V**A. Maintenance of State Financial Support**

Pursuant to the authority established in IDEA section 618(a)(3), each applicant for funds under section 611 must provide the following State fiscal data with a certification of its accuracy by the State budget office or an authorized representative thereof. In order to complete Section V.A of the Application, States must provide in whole dollars the total amount of State financial support made available for special education and related services for children with disabilities during SFYs 2019 and 2020. However, if a State met the MFS requirement on a per capita basis, it **must** complete the first chart and then may also complete the second chart by providing, in whole dollars, the amount of State financial support made available for special education and related services per child with a disability during SFYs 2019 and 2020.

B. Significant Disproportionality²

In accordance with 34 CFR § 300.647(b)(7), each State must report all risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress if the State uses the “reasonable progress” flexibility in 34 CFR § 300.647(d)(2), and the rationales for each, to the Department. Under § 300.647(b)(7), rationales for minimum cell sizes that exceed 10 and minimum n-sizes that exceed 30 must include a detailed explanation of why the numbers chosen are reasonable and how they ensure that the State is appropriately analyzing and identifying LEAs with significant disproportionality based on race and ethnicity, in the identification, placement, or discipline of children with disabilities. Additionally, pursuant to the authority established in IDEA section 618(a)(3), each applicant must also provide the number of years of data it uses in making annual determinations of significant disproportionality. Each applicant must provide this information by completing and submitting the Significant Disproportionality Reporting Form.

All States completed and submitted the **Significant Disproportionality Reporting Form** with their FFY 2020 IDEA Part B application. After the initial submission of the Form, a State will only be required to submit the Form with any future annual IDEA Part B State applications if the State modifies its risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress, and rationales for each, or the number of years of data used in making annual determinations of significant disproportionality.

If your State has revised its Significant Disproportionality procedures or has any questions regarding Section V. B. of the grant application, please contact your OSEP State Lead before the Application due date.

**Delaware Department of Education submitted requirements with FFY2020 IDEA Part B application.
Delaware has not modified any areas of measuring significant disproportionality.**

² This collection is not intended to replace or duplicate the information collected through the Significant Disproportionality State Survey (Docket No. ED-2019-ICCD-0065; 1820-NEW). That survey will collect information that the Department will use to support States and LEAs in their efforts to comply with the statutory requirement at section 618(d) of the IDEA.

If a parent revokes consent, that revocation is not retroactive (i.e., it does not negate an action that has occurred after the consent was given and before the consent was revoked). If the parent revokes consent in writing for their child's receipt of special education services after the child is initially provided special education and related services, the public agency is not required to amend the child's education records to remove any references to the child's receipt of special education and related services because of the revocation of consent.

6.0 Determination of Eligibility

- 6.1 General: Upon completion of the administration of assessments and other evaluation measures, a group of qualified professionals and the parent of the child the child's IEP team shall determine whether the child is a child with a disability, as defined in 14 DE Admin. Code 922.3.0, in accordance with 6.2 and subsection 6.3, and shall determine the educational needs of the child, and the child. The IEP team shall document its eligibility determination in an evaluation summary report. The public agency shall provide a copy of the evaluation summary report and the documentation of determination of and other reports created to determine eligibility at no cost to the parent. The evaluation report shall document the IEP team's discussion of the eligibility determination including, where appropriate, the additional requirements for students with a learning disability.
- 6.2 Special rule for eligibility determination: A child shall not be determined to be a child with a disability under these regulations **14 DE Admin. Code 922.3.0** if the determinant factor for that determination is:

- 6.2.1 Lack of appropriate instruction in reading, including the essential components of reading instruction (as defined in section 1208(3) of the Elementary and Secondary Education Act of 1965 (ESEA)); meaning lack of instruction in the essential components of reading instruction which are phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills), and reading comprehension strategies, or
- 6.2.2 Lack of appropriate instruction in math; or
- 6.2.3 Limited English proficiency, and
- 6.2.4 If the child does not otherwise meet the eligibility criteria to be determined a child with a disability as defined in 14 DE Admin. Code 922.3.0.
- 6.3 Procedures for determining eligibility and educational need: Eligibility decisions may include historical information to the extent relevant to the child's current needs. In interpreting evaluation data for the purpose of determining if a child is a child with a disability under 14 DE Admin. Code 922.3.0, and the educational needs of the child, each public agency shall:
- 6.3.1 Draw upon information from a variety of sources, including, as appropriate, aptitude and achievement tests, information acquired from response-to-intervention information acquired from proposed regulation **14 DE Admin. Code 508 Multi-Tiered System of Support (MTSS) (23 DE Reg. 613 (02/01/20))** processes, parent input, and teacher recommendations, as well as information about the child's physical condition, social or cultural background, and adaptive behavior; and ensure that information obtained from all of these sources is documented and carefully considered.
- 6.3.2 If a determination is made that a child has a disability and needs special education and related services, an IEP shall be developed for the child in accordance with 20.0 through 24.0.
- 6.4 If prior to the effective date of 6.1, a child has been identified as a child with a learning

disability or a mild intellectual disability, and is receiving special education services from a Delaware public agency as a result of that identification, the child shall continue to be eligible for services in Delaware as a child with a learning disability or mild intellectual disability student until the child's re-evaluation as required in 3.0. Reevaluation of such students shall apply the eligibility requirements of 6.11 and 7.0 through 12.0 as appropriate to the child's grade level as of the date of the reevaluation.

6.5 Other Eligibility Requirements and Exit Criteria. Educational Classifications in General and Exit Criteria

6.5.1 There are twelve (12) distinct educational classifications: Autism, Developmental Delay, Deaf, Blind (also referred to as "Dual Sensory Impairment"), Emotional Disability, Hearing Impairment (also referred to as "deaf" or "hard of hearing"), Specific Learning Disability, Intellectual Disability, Orthopedic Impairment, Other Health Impairment, Speech/Language Impairment, Traumatic Brain Injury, and Visual Impairment Including Blindness. Eligibility criteria, disability-specific evaluation procedures, re-evaluation procedures, documentation and additional IEP team members necessary for each educational classification are delineated in subsections 6.6 through 6.18.

6.5.2 A child shall be entitled to receive special education and related services, and shall be eligible to be counted as a special education student for purposes of the unit funding system established under 14 Del.C. Ch. 17, when the child's IEP team has determined that the child meets the eligibility criteria of at least one (1) of the disability educational classifications in this section, and by reason thereof, needs special education and related services.

6.5.3 A child's IEP team may determine that a child is eligible for special education and related services under more than one disability (1) educational classification. The disability educational classification selected by the IEP team shall not be a relevant factor in determining whether the child received FAPE, provided that the child's IEP is based on the child's educational needs.

6.5.4 When an IEP team determines that a child is eligible for special education and related services under more than one disability (1) educational classification, the child's primary disability classification shall be recorded first on the IEP.

6.5.5 Exit Criteria: A child's eligibility for special education and related services shall terminate when:

6.5.5.1 the The child reaches his or her their 21st birthday birthdate. A child with a disability who reaches his or her their 21st birthday birthdate after August 31 may continue to receive special education and related services until the end of the school year, including appropriate summer services through August 31; or

6.5.5.2 the The child graduates from high school with a regular high school diploma. As used in this subsection, regular high school diploma does not

	<p>include a GED; or</p> <p>6.5.4-36.5.5.3 the IEP team determines the child is no longer a child with a disability in need of special education and related services. In making such determination, the team shall consider: eligibility criteria; data based and documented measures of educational progress; and other relevant information.</p>
6.6	<p>Eligibility Criteria for Autism: The educational classification of autism encompasses the clinical condition of Autistic Disorder, as well as other typically less severe Pervasive Developmental Disorders, (i.e., Asperger Syndrome and Pervasive Developmental Disorder, Not Otherwise Specified). These conditions share important features, and together, comprise the Autistic Spectrum Disorders (ASDs). Students with educational classifications of autism may have ASD of differing severity as a function of the number and pattern of features defined in the eligibility criteria listed below.</p> <p>6.6.1 In order for the IEP team to determine eligibility for special education services under the Autism category, the following is required:</p> <p>6.6.1.1 All students with an educational classification of autism demonstrate a significant, qualitative impairment in reciprocal social interaction, as manifested by deficits in at least two of the following:</p> <ul style="list-style-type: none"> 6.6.1.1.1 Use of multiple nonverbal behaviors to regulate social interactions; 6.6.1.1.2 Development of peer relationships; 6.6.1.1.3 Spontaneous seeking to share enjoyment, interests, or achievements with other people, including parent(s) and caregivers; or 6.6.1.1.4 Social or emotional reciprocity. <p>6.6.1.2 All students with an educational classification of autism also demonstrate at least one feature from either 6.6.1.2.1 or 6.6.1.2.2.</p> <p>6.6.1.2.1 A qualitative impairment in communication, as manifested by:</p> <ul style="list-style-type: none"> 6.6.1.2.1.1 A lack of, or delay in, spoken language and failure to compensate through gesture; 6.6.1.2.1.2 Relative failure to initiate or sustain a conversation with others; 6.6.1.2.1.3 Stereotyped, idiosyncratic, or repetitive speech; or 6.6.1.2.1.4 A lack of varied, spontaneous make-believe play or social initiative play. <p>6.6.1.2.2 Restricted, repetitive, and stereotyped patterns of behavior, as manifested by:</p> <ul style="list-style-type: none"> 6.6.1.2.2.1 Encompassing preoccupation or circumscribed and restricted patterns of interest; 6.6.1.2.2.2 Apparently compulsive adherence to specific, nonfunctional routines and rituals; 6.6.1.2.2.3 Stereotyped and repetitive motor mannerisms; or 6.6.1.2.2.4 Persistent preoccupation with parts and sensory qualities of objects. <p>6.6.1.3 All students with an educational classification of autism have impairments that:</p>

<p>6.6.1.3.1 Are inconsistent with the student's overall developmental and functional level; and</p> <p>6.6.1.3.2 Result in an educationally significant impairment in important areas of functioning; and</p>
<p>6.6.1.3.3 Are a part of a clear pattern of behavior that is consistently manifested across a variety of people, tasks and settings, and that persists across a significant period of time; and</p>
<p>6.6.1.3.4 Are not primarily accounted for by an emotional disorder.</p>
<p>6.6.2 An educational classification of autism is established:</p>
<p>6.6.2.1 Using specialized, validated assessment tools that provide specific evidence of the features of ASD described above;</p>
<p>6.6.2.2 By individuals who have specific training in the assessment of students with ASD in general, and in the use of the assessment procedures referred to in 6.6.2.1; and</p>

<u>6.17.2. Age of Eligibility:</u>	A child is eligible for special education and related services under the Visual Impairment including Blindness educational classification from birth until the child's receipt of a regular high school diploma or the end of the school year in which the student attains the age of 21, whichever occurs first.
<u>6.17.3. Additional Criteria for Eligibility:</u>	While a child with a disability may be eligible for multiple educational classifications, the child's primary educational classification shall be Visual Impairment including Blindness if the child meets the criteria in subsection 6.17.1 and the adverse effect on educational performance cannot primarily be explained by factors listed under the special rule for eligibility determination consistent with 14 DE Admin. Code 925.6.2.
<u>6.17.4. Disability-Specific Evaluation Procedures:</u>	In addition to the evaluation procedures required by 14 DE Admin. <u>6.18—Eligibility Criteria for Preschool Speech-Delay (3 and 4 year olds only):</u>	
<u>6.18.1</u>	A speech disability is defined as a communication disorder or delay involving articulation, voice quality, or speech fluency to such a degree that it interferes with a child's overall communicative performance.
<u>6.18.2</u>	In order to determine a significant delay or disorder in this area, the child shall receive a speech and language evaluation conducted by a licensed Speech and Language Pathologist.
<u>6.18.2.1</u>	A speech and language evaluation shall include assessment of articulation, receptive language and expressive language as measured by a standardized

<p>form-based instrument. It is strongly recommended that the evaluation include clinical observations or an assessment of oral-motor functioning, voice-quality and speech fluency. Results of the evaluation may identify a significant delay or disorder in one or more of the following areas:</p>
<p>6.18.2.1.1 Articulation errors of sounds that are considered to be developmentally appropriate for the child's age as measured by an articulation test;</p>
<p>6.18.2.1.2 Conversational speech that is not developmentally appropriate for the child's age as measured by a speech and language pathologist;</p>
<p>6.18.2.1.3 Oral-motor involvement which may affect the development of normal articulation;</p>
<p>6.18.2.1.4 Speech fluency, or</p>
<p>6.18.2.1.5 Voice quality</p>
<p>6.18.3 Results of the evaluation may indicate a significant delay in receptive and expressive language which warrants further evaluation. In this event, the child is to be referred for a multidisciplinary evaluation to determine if he/she meets the eligibility criteria for developmental delay.</p>
<p>6.18.4 The age of eligibility for preschool children identified under this definition shall be from the third birth date until the fifth birth date.</p>

<h2>7.0 Learning Disabilities</h2>
<p>7.1 General: Subject to the effective dates in 6.11 and the special grandfathering rule in 6.4, eligibility for special education services under the learning disability category shall be contingent on the prior delivery of appropriate instruction, and shall further consider the child's response to scientific, research-based interventions delivered according to the procedures in 12.0.</p>
<p>7.2 Assessments of intellectual functioning are not required to determine eligibility for special education services under the learning disability category. Assessments of intellectual functioning should generally be reserved for students suspected of having an intellectual disability or where an instructional support team or other group of qualified professionals (see 6.1), and the parent determines such tests are relevant in selecting appropriate instructional or behavioral interventions.</p>

- 8.1.1 The child's regular teacher; or
 - 8.1.2 If the child does not have a regular teacher, a regular classroom teacher qualified to teach a child of his or her age; or
 - 8.1.3 For a child of less than school age, an individual qualified by the DOE to teach a child of his or her age; and
 - 8.1.4 At least one person qualified to conduct individual diagnostic examinations of children such as a school psychologist, speech language pathologist, or remedial reading teacher.

9.0 Determining the Existence of a Specific Learning Disability

- 9.1 Subject to 6.4 and 6.11, the group described in 6.1 may determine that a child has a specific learning disability if:
- 9.1.1 Lack of achievement: The child does not achieve adequately for the child's age or to meet State-approved grade level standards in one or more of the following areas, when provided with learning experiences and instruction appropriate for the child's age or State-approved grade level standards as further described in 12.0:
 - 9.1.1.1 Oral expression.
 - 9.1.1.2 Listening comprehension.
 - 9.1.1.3 Written expression.
 - 9.1.1.4 Basic reading skill.
 - 9.1.1.5 Reading fluency skills.
 - 9.1.1.6 Reading comprehension.
 - 9.1.1.7 Mathematics calculation.
 - 9.1.1.8 Mathematics problem solving; and
 - 9.1.2 Insufficient progress: The child does not make sufficient progress to meet age or State approved grade level standards in one or more of the areas identified in 9.1.1 when using a process based on the child's response to scientific, research-based intervention as further described in 12.0; or
 - 9.1.3 Pattern of strengths and weaknesses: The child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, State approved grade level standards, or intellectual development, that is determined by the group to be relevant to the identification of a specific learning disability using appropriate assessments, consistent with 4.0 and 5.0; and
 - 9.1.4 Rule-out other conditions: The group determines that its findings under 9.1.1, 9.1.2 and 9.1.3 are not primarily the result of:

	<p>9.1.4.1 A visual, hearing, or motor disability;</p> <p>9.1.4.2 Intellectual Disability;</p> <p>9.1.4.3 Emotional disability;</p> <p>9.1.4.4 Cultural factors;</p> <p>9.1.4.5 Environmental or economic disadvantage, or</p> <p>9.1.4.6 Limited English proficiency.</p>
9.2	<p>To ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the group shall consider, as part of the evaluation described in 4.0 through 6.0:</p>
9.2.1	<p>Data that demonstrate that prior to, or as a part of, the referral process, the child was provided appropriate instruction in regular education settings, delivered by qualified personnel; and</p>
9.2.2	<p>Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child's parents.</p>
9.3	<p>The public agency shall promptly request parental consent to evaluate the child to determine if the child needs special education and related services, and shall adhere to the time frames described in 2.3 and 3.0 (unless extended by mutual written agreement of the child's parents and a group of qualified professionals, as described in 6.1):</p>
9.3.1	<p>If, prior to a referral, a child has not made adequate progress after an appropriate period of time (as further provided in 12.0) when provided instruction, as described in 9.2; and</p>
9.3.2	<p>Whenever a child is referred for an evaluation.</p>

10.0	<h3>Observation</h3>
10.1	<p>The public agency shall ensure that the child is observed in the child's learning environment (including the regular classroom setting) to document the child's academic performance and behavior in the areas of difficulty.</p>
10.2	<p>The group described in 6.1, in determining whether a child has a specific learning disability, shall decide to use information from an observation in routine classroom instruction and monitoring of the child's performance that was done before the child was referred for an evaluation, or have at least one member of the group conduct an observation of the child's academic performance in the regular classroom after the child has been referred for an evaluation and parental consent is obtained.</p>
10.3	<p>In the case of a child of less than school age or out of school, a group member shall observe the child in an environment appropriate for a child of that age.</p>

12.0 Response to Intervention Procedures

12.1 Each public agency shall establish and implement procedures to determine whether a child

	<p>responds to scientific, research-based interventions (RTI) for reading and mathematics.</p> <p>12.1.1 Agencies may also establish and implement procedures to determine whether a child responds to scientific, research-based interventions in oral expression, listening comprehension, and written expression.</p> <p>12.2 Public agencies shall use rubrics approved by DOE to evaluate and select programs of instruction, and Tier 2 and Tier 3, interventions for reading and mathematics.</p> <p>12.3 Instructional screening instruments used as part of RTI procedures shall be norm referenced or curriculum based and progress monitoring instruments used as part of RTI procedures shall be curriculum based.</p> <p>12.4 RTI procedures, including the same frequency and intensity of instruction, and small group settings available to all students, shall apply to children with disabilities who already receive special education and related services. RTI procedures shall not be required for students who participate in Alternate Assessment based on Alternate Achievement standards (AA+AAS).</p> <p>12.4.1 IEP teams of children with disabilities may specialize the instruction and method of delivering interventions under RTI procedures.</p> <p>12.4.2 IEP teams may also determine that a child with a disability requires more intensity or frequency of instruction, or smaller group settings than would otherwise be provided under RTI procedures.</p> <p>12.5 RTI procedures shall include the tiers and types and duration of services and interventions described in 12.6 through 12.10.</p> <p>12.6 Tier 1. Core Classroom Instruction: Tier 1 services shall be designed to be delivered in a general education setting, by a general education teacher. Instruction shall be delivered with fidelity as part of a scientifically based core curriculum and matched to student need.</p> <p>12.6.1 Universal Tier 1 instructional screenings for reading and mathematics at the elementary level shall be conducted at least 3 times each regular school year at routine and fairly spaced intervals. For students at risk of academic failure, the first screening shall be conducted within 2 weeks of the beginning of the regular school year, or within 2 weeks of the child's entry into school. Tier 1 instructional screenings for reading and mathematics at the secondary level shall be conducted for students at risk of academic failure at least three (3) times each regular school year at routine and fairly spaced intervals. The first screening shall be conducted with two (2) weeks of the beginning of the regular school year, or within two (2) weeks of the child's entry into school.</p> <p>12.6.2 Children who score at or below the th 25 percentile on a norm-referenced test or the designated cut point on a curriculum based measure for any instructional screening, shall be provided Tier 2 interventions.</p> <p>12.6.3 A school-based team (such as a literacy team, a leadership team or a grade-level team) shall review the program and progress of any child who does not score at th 25 percentile on any instructional screening, but who does score above the th 25 percentile on a norm-referenced test or the designated cut point on a curriculum based measure, to assure that the child is receiving differentiated, needs-based instruction. In addition, the team's review shall include the fidelity of program implementation, pacing</p>

and appropriateness of instructional groupings:

12.6.3.1 The child's progress toward end-of-year benchmarks shall be monitored at least once every 2 weeks until progress monitoring consistently demonstrates that the child is on a trajectory to meet end-of-year benchmarks.

12.6.3.2 If, after 6 weeks of progress monitoring, the child is not on a trajectory to meet end-of-the-year benchmarks, the child shall be provided Tier 2 interventions unless the school-based team specifically determines that further progress monitoring is required before additional interventions are provided.

12.7 Tier 2 interventions shall be designed to be delivered primarily in the general education setting, by a general education teacher, but may be delivered in other or additional settings or by other trained staff as appropriate to the specific intervention. It shall be implemented with fidelity to its scientific research base and matched to student need.

12.7.1 Tier 2 intervention shall be in addition to regularly scheduled core instruction in the general education curriculum, and shall be delivered in small group, at a minimum of ninety (90) minutes per week in session periods appropriate to age and development, but not less than two (2) sessions per week. In the case of a student identified in need of intervention in both reading and math, the intervention shall be designed by the instructional support team proportionate to student need, but not less than one hundred twenty (120) minutes per week.

12.7.2 Tier 2 interventions shall be delivered for at least 6 school weeks. Progress shall be monitored weekly against established benchmarks.

12.7.3 If, after 6 school weeks of Tier 2 intervention, a child has made no progress toward benchmarks, or has made progress, but is not on a trajectory to meet end-of-year benchmarks, an instructional support team formulated in accordance with 14 DE Admin. Code 923.1.9, shall meet to review the child's program and progress, to assure that the child is receiving differentiated, needs-based instruction. In addition, the instructional support team's review shall include fidelity of program implementation, pacing, and appropriateness of instructional groupings. Based on its review, the instructional support team shall determine whether additional assessments are required, additional changes to instructional or behavioral methods are required, or the child requires Tier 3 intervention.

12.7.4 If, after an additional 6 school weeks of Tier 2 intervention (or up to a total of 12 school weeks of intervention) a child has made no progress toward benchmarks, or has made progress, but is not on a trajectory to meet end-of-year benchmarks, the child shall begin receiving Tier 3 intervention as outlined by the instructional support team.

12.8 Tier 3 interventions shall be designed primarily in the general education setting, by a general education teacher and additional staff, but is likely to be delivered in other or additional settings, or by other trained staff as appropriate to the specific intervention. It shall be implemented with fidelity to its scientific research base and matched to the student's needs.

12.8.1 Tier 3 intervention shall be in addition to regularly scheduled core instruction in the general education curriculum, and shall be delivered in groups smaller than those for

- intervention delivered in Tier 2, at a minimum of one hundred and fifty (150) minutes per week in session periods appropriate to age and development, but not less than four (4) sessions per week. In the case of a student identified in need of intervention in both reading and math, the intervention shall be designed by the instructional support team proportionate to student need, but not less than one hundred eighty (180) minutes per week.
- 12.8.2 Tier 3 interventions shall be delivered for at least 6 school weeks. Progress shall be monitored weekly against established benchmarks.
- 12.8.3 If, after 6 school weeks of Tier 3 interventions (or up to a total of 18 school weeks of intervention), a child has made no progress toward benchmarks, the instructional support team shall refer the child for an initial evaluation for special education services.
- 12.8.4 If, after 6 school weeks of Tier 3 interventions (or up to a total of 18 school weeks of intervention), a child has made progress toward benchmarks, but is not on a trajectory to meet end-of-year benchmarks, the instructional support team shall meet to review the child's program and progress, to assure that the child is receiving differentiated needs-based instruction. In addition, the instructional support team's review shall include fidelity of program implementation, pacing, and appropriateness of instructional groupings. Based on its review, the instructional support team shall determine whether additional assessments are required, additional changes to instructional or behavioral methods are required, or the child should be referred for an initial evaluation for special education services.
- 12.8.5 If, after an additional 6 school weeks of Tier 3 interventions (or up to a total of 24 school weeks of interventions), a child has not made sufficient progress toward end-of-year benchmarks, the instructional support team shall refer the child for an initial evaluation for special education services.
- 12.9 RTI procedures shall also be designed to permit students to move between tiers of intervention based on the child's progress against benchmarks as measured through weekly progress monitoring. Weekly progress monitoring shall continue after a student is referred for an initial special education evaluation and for any student who is evaluated and determined eligible for special education and related services after receiving the interventions required in this section. In addition, the child's IEP team shall specifically consider the information gathered about the child's response to interventions, and the results of ongoing progress monitoring, in developing and revising the child's IEP. Subject to 3.0, a public agency shall initiate a reevaluation when ongoing progress monitoring indicates that the child's performance in reading or mathematics has improved such that the child may no longer require special education and related services.
- 12.10 If 20% of students in a classroom are not meeting benchmark on any instructional screening, a school-based team, including a building level administrator, shall meet to consider the need for additional classroom supports and strategies.
- 12.11 Consistent with 1.0 through 5.0, a parent of a child may initiate a request for an initial evaluation at any time, including during the RTI process. The public agency may grant or decline the request. If the public agency declines to conduct the initial evaluation, it must provide written notice consistent with 14 DE Admin. Code §26.3.0. If the public agency

agrees to conduct an initial evaluation, the evaluation shall be completed, and an eligibility determination made, within the time frame established in 2.3. However, a child may be determined ineligible for services under the learning-disability or mild-intellectual-disability categories where there are insufficient data to demonstrate that the child was provided appropriate instruction in the regular education setting, or where there is insufficient data-based documentation of repeated assessments of achievement. If a child is determined ineligible for special education services on these grounds, the child may be referred back to an instructional support team to gather the required documentation and data by completing the RTI process. Eligibility for special education services may then be reconsidered at the request of the parent or a member of the instructional support team.

- 24.2.11.2** Consideration of special factors: The IEP Team shall:
- 24.2-411.2.1 In the case of a child whose behavior impedes the child's learning or that of others, consider the use of positive behavioral interventions and supports, and other strategies, to address that behavior;

- 24.2-311.2.3 In the case of a child who is blind or visually impaired, provide for instruction in Braille and the use of Braille unless the IEP Team determines, after an evaluation of the child's reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child's future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate for the child;
- 24.2-411.2.4 Consider the communication needs of the child, and in the case of a child who is deaf or hard of hearing, consider the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode;

24.511.5 Consolidation of IEP Team meetings: To the extent possible, the public agency shall encourage the consolidation of re-evaluation meetings for the child and other IEP Team meetings for the child.

24.611.6 Amendments: Changes to the IEP may be made either by the entire IEP Team at an IEP Team meeting, or as provided in 24.4 subsection 11.4, by amending the IEP rather than by redrafting the entire IEP. Upon request, a parent shall be provided with a revised copy of the IEP with the amendments incorporated.

24.711.7 Review and revision of IEPs, General: Each public agency shall ensure that, subject to 24.8 and 24.9 subsections 11.8 and 11.9, the IEP Team reviews the child's IEP periodically, but not less than annually, to determine whether the annual goals for the child are being achieved; and revises the IEP, as appropriate, to address:

24.4211.12 Children with disabilities in adult prisons, requirements that do not apply: The following requirements do not apply to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons:

High quality core academic instruction and non-academic practices are provided as universal supports to all children. Evidence-based intervention and supports are matched to student needs and informed by ongoing progress monitoring and additional formative assessments.</p> <p>“Parent” means a biological or adoptive parent of a child; a guardian generally authorized to act as the child’s parent, or authorized to make educational decisions for</p>

Code 926.19.0.</p>	<p>3.0 Instructional Resources</p> <p>LEAs shall evaluate and select instructional resources for Tier 1, and interventions for Tier 2 and Tier 3, for academic, behavioral and social-emotional skills which are of high quality, evidence-based and aligned with the State's appropriate content standards.</p> <p>4.0 Assessment</p> <p>Screening, diagnostic assessment and progress monitoring processes shall be used as part of MTSS procedures. Any tools used shall be norm-referenced, criterion-referenced or curriculum-based as appropriate.</p> <p>5.0 Problem Solving Team</p> <p>5.1 LEAs will have a school-based problem-solving team at each of their schools consisting of three to five core members and shall include at least one of the student's classroom teachers. [Additional members may be added as needed.]</p> <p>5.2 The team shall review student data to identify individual student needs and make evidence-based decisions.</p> <p>5.3 Using the student data, the problem-solving team will design an intervention plan as outlined in Section 7.0, which shall [include, but is not limited to, include] specific baseline data, learning targets, type and frequency of [intervention and data-collection intervention, data collection, and anything else the problem-solving team considers necessary].</p> <p>5.4 The team shall collect progress monitoring data at regular intervals. Data collection must include documentation of fidelity of implementation, consisting of differentiated, evidence-based instruction, pacing and appropriateness of instructional</p>

groupings.

5.5 The team shall hold meetings after the six to eight-week intervention cycle to monitor progress toward identified targets, the fidelity of implementation and determine the next steps. [Teams may meet earlier, as needed.]

5.6 LEAs shall have a process for providing parents with the MTSS intervention plan and data collected as part of the MTSS framework as described in Section 7.0.

6.0 MTSS Framework and Procedures

6.1 The MTSS framework and procedures shall include the tiers, types and duration of services and interventions described in subsections 6.1.1 and 6.1.3.3.

6.1.1 Tier 1 - Core classroom instruction which is aligned to Delaware adopted state standards and practices, shall be designed and delivered with fidelity to all students. Tier 1 core classroom instruction should be high quality, evidence-based and differentiated within flexible groupings and responsive to all students' needs. A multiple-gating procedure shall be implemented as follows:

6.1.1.1 The first stage is a universal screening, which shall be conducted within the first four weeks of the school year or within four weeks of the student's entry into school. Universal screening will take place at least two more times during the school year at spaced intervals. For students who are identified through universal screening as needing additional supports, a second stage of screening is conducted within the next two weeks to specify the areas of need.

6.1.1.2 The second stage involves additional data analysis to confirm that there are specific areas of need for Tier 2 supports.

6.1.1.3 If twenty percent (20%) of students in a classroom are not meeting benchmark on any instructional screening, a school-based team, which may be an existing team, including a building level administrator, shall meet to consider the need for additional classroom...

instructional and systems level supports and strategies.

6.1.1.4 Based on the results of the multiple-gating procedure, a problem-solving team shall design intervention plans for students who require Tier 2 support as described in subsection 6.1.2.

6.1.2 Tier 2 - Interventions shall be designed to be delivered in the student's primary, scheduled education setting, by the student's teacher or teachers, but may be delivered in other or additional settings or by other trained staff as appropriate to the specific intervention.

6.1.2.1 After [no more than] six to eight school weeks of Tier 2 **[Intervention intervention]**, the problem-solving team shall conduct a review of the plan as described in Section 5.0 to determine whether additional assessments, as described in Section 4.0, are required, and whether changes to Tier 2 academic or non-academic methods are required; or the student should be provided Tier 3 intervention.

6.1.2.1.1 If a student has made significant progress and is now on a trajectory to meet end-of-year benchmarks, a student may continue in Tier 2 intervention or be excused from Tier 2 intervention.

6.1.2.1.2 After no more than six to eight school weeks of Tier 2 intervention, the problem-solving team shall conduct a review of the plan as described in Section 5.0 to determine whether additional assessments are required, changes to Tier 2 academic or non-academic methods are required.]

[6.1.2.1.2 6.1.2.1.3] If a student has made no progress toward benchmarks, or has made progress but is not on a trajectory to meet end-of-year benchmarks, a student may continue in Tier 2 intervention with increased intensity (e.g. smaller group, increased time of academic or non-academic intervention) or receive Tier 3 interventions.

6.1.3 Tier 3 - Interventions shall be designed to be delivered in the

student's primary (scheduled) education setting, by the student's teacher or teachers, but may be delivered in other or additional settings or by other trained staff as appropriate to the specific intervention.

6.1.3.1 After [no more than] six to eight school weeks of Tier 3 Intervention intervention, the problem-solving team shall conduct a review of the plan as described in Section 5.0 to determine whether additional assessments are required, changes to Tier 3 academic or non-academic methods are required; or the student should be referred for an initial evaluation for special education.

6.1.3.2 If a student has made significant progress towards established targets, a student may continue in Tier 3 intervention with a new target or be provided Tier 2 intervention.

6.1.3.3 If a student has made no progress towards established targets, or has made progress, but is not on a trajectory to meet established targets, a student may continue in Tier 3 intervention with increased intensity (e.g. smaller group, increased time of academic or non-academic intervention) or be referred for an initial evaluation for special education services as outlined in Regulation 925.

7.0 Program Effectiveness

7.1 LEA shall provide a description of the methods used to implement and evaluate the effectiveness of the program upon the request of the Department.

[7.2 This regulation will go into effect August 1, 2020.]
