DELAWARE STATE SENATE
148th GENERAL ASSEMBLY

SENATE BILL NO. 180

AN ACT TO AMEND TITLE 14 OF THE DELAWARE CODE AUTHORIZING THE DEPARTMENT OF
EDUCATION TO ESTABLISH AND MAINTAIN PROCEDURES FOR THE APPOINTMENT OF INDIVIDUALS TO
REPRESENT THE EDUCATIONAL INTERESTS OF A CHILD WITH A DISABILITY.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF DELAWARE:

1 Section 1. Amend §3101, Title 14 of the Delaware Code by making deletions as shown by strike through and
2 insertions as shown by underline as follows:

3 §3101 Definitions.

4 (7) "Parent;" ~~for purposes of this chapter, includes~~ means a biological or natural parent of a child with a
5 disability, or, as appropriate, a stepparent, guardian, educational surrogate parent, appointed educational representative,
6 relative caregiver or custodian. The identity and authority of a person qualifying as a parent is subject to modification
7 by Family Court or Court of Chancery order. Subject to §3132 of this chapter, if ~~With respect to~~ a child with a
8 disability ~~who~~ has reached that child's own eighteenth birthday, and ~~for whom~~ no guardian of the person has been
9 appointed, all rights and entitlements accorded to parents by this chapter shall be deemed accorded directly to the child
10 with a disability.

11 Section 2. Amend §3132, Title 14 of the Delaware Code by making additions as shown by underlining as follows:
12 §3132 Educational surrogate parents and educational representatives.

13 (a) Educational surrogate parents.

14 The Department with the approval of the State Board of Education shall establish and maintain procedures to
15 protect the rights of a child with a disability whenever the parents of the child are not known, unavailable or the child is
16 a ward of the State, or an unaccompanied homeless youth as defined in § 725(6) of the McKinney-Vento Homeless
17 Assistance Act (42 U.S.C. § 11434a(6)), including the assignment of an individual, who shall not be an employee of

18 any public agency involved in the education or care of the child, to act as an educational surrogate parent for the child.
19 The educational surrogate parent shall exercise and be accorded all rights of a parent to assure the provision of a free,
20 appropriate, public education to the child.

21 (b) Educational representatives.

22 The Department of Education, with the approval of the State Board of Education, shall establish and maintain
23 procedures, by regulation, to assure that children with disabilities who have reached age 18 have an identified decision-
24 maker, which may be the child with a disability, to exercise rights under this chapter. Such regulations shall be
25 developed in consultation with the Governor’s Advisory Council for Exceptional Citizens and incorporate the
26 following minimum standards, including a timeline to review the need for an educational representative.

27 (1) A child with a disability without a court-appointed guardian of the person shall be presumed
28 to have capacity and be accorded the rights of a parent upon attainment of age 18.

29 (2) A child with a disability with capacity may authorize an agent to exercise rights through
30 execution of a power of attorney or a standard voluntary grant of authority form published by the Department.

31 (3) The determination of capacity shall be made by the IEP team during an IEP meeting and
32 shall conform to the following standards:

33 a. In cases where capacity is uncertain, a school psychologist familiar with the child
34 must attend the initial meeting. For purposes of this section, the term “familiar with the child” means the
35 school psychologist has conducted a recent in-person evaluation of the child which conforms to evaluation
36 procedures established by Department regulations.

37 b. The child with a disability and parent, as defined in §3101(7) of this chapter, must be
38 invited to participate in the meeting regardless of whether the child has already attained the age of 18.

39 c. The IEP team may consider information from sources apart from school personnel
40 and may authorize evaluation if necessary to inform its deliberations.

41 d. If information is ambiguous, any benefit of the doubt shall be exercised in favor of a
42 finding of capacity.

43 (4) If the IEP team determines that the child lacks capacity, the IEP team shall appoint an
44 individual to serve as an educational representative in the following descending order of priority:

45 a. willing and available biological or adoptive parent;

46 b. willing and available relative.

47 If such an individual is not identified, the IEP team shall promptly facilitate a referral to the Department

48 for appointment of an educational surrogate parent. An appointed educational representative shall have the same
49 authority as a parent under §3101(7) of this chapter.

50 (5) If a child with a disability or parent disagrees with the capacity determination, either may
51 contest the determination by pursuing dispute resolution options described in the procedural safeguards of this
52 chapter or its implementing regulations regardless of the child's attainment of age 18.

53 (6) The capacity determination is limited to exercise of rights under this chapter and its
54 implementing regulations and shall not affect exercise of rights in any other context. In furtherance of this
55 limitation, any other statute notwithstanding, the capacity determination shall not be admissible as evidence of
56 competency or capacity in any non-educational judicial or administrative proceeding.

57 Section 3. This bill shall become effective 180 days from the date of enactment.

SYNOPSIS

This Act provides procedures to ensure that each child with a disability who has reached age 18 has an identified educational decision-maker to exercise rights under this chapter. A child with a disability who has capacity may exercise his own rights or appoint an agent to exercise educational rights. A child with a disability who does not have capacity to provide informed consent with respect to educational programming will have an educational representative appointed, with a parent receiving priority for that role. The Department of Education, with the approval of the State Board of Education, shall promulgate regulations to implement this section. The Act shall be in effect 180 days from the date of enactment to allow regulations to be developed and provide school districts and charter schools time to receive training.
