

1.8 Start-up and Operations

14 *Del. C. §§ 512(1), (8)-(10), and (12)-(13)*

4. Transportation. Describe how students will be transported to the school pursuant to 14 ...

Students will be transported via contracted school bus to and from their homes Monday through Friday. LTA will secure a highly reputable and insured firm that specializes in the student transportation business. Based on the enrollment reported in April to the DDOE, the School Leader will open the bus routes to a public bidding process. LTA will make every effort to accommodate transportation needs of all students enrolled. During each afternoon, students in extended day, sports, clubs and other activities will go home on late buses that LTA will also contract. LTA will provide transportation equipped with lifts to transport students in wheelchairs and specific IEP defined services. LTA will provide transportation services specified in the student's IEP.

Describe the plan for oversight of transportation operations (e.g., whether the school will...

The School Leader will be responsible for oversight of transportation operations. Bus transportation estimate is included in the budget sheets. LTA will follow the student transportation procedures of the vocational school district. Transportation costs for athletic programs, vocational youth groups and other extracurricular such activities will be funded through booster clubs.
