

Mr. Mark T. Murphy,
Secretary of Education

December 28, 2014

Dear Mr. Murphy,

As a new mother, I want the best for my baby girl. I'm a native of Sussex County and a product of its schools. My daughter will be too. I want the best for her. I want her to have more chances for success than I had. The sky is the limit for her. Vine's Preparatory Charter School will give my baby girl options and broaden her horizons. I'm all in favor of it opening in this area.

December 28, 2014

Dear Mr. Murphy,

I would love to see Vine's Preparatory School open in Sussex County. It would be nice to have some new things in Sussex County. Money seems to be spent in the other counties or here at the beach, but it's time to invest in our children. They're our most valuable resource.

December 28, 2014

Dear Mr. Murphy,

I've read a lot in the newspapers about the condition of schools in the Wilmington / New Castle County area. While our schools seem to be in much better shape, there's always a possibility that things could go wrong if we don't do something to stop that from happening. I think Vine's Prep School would be a step in the right direction, and I hope the school is able to open in Sussex County.

Secretary of Education

December 29, 2014

Dear Mr. Murphy,

I would be in favor of Vine's Preparatory School opening in Sussex County. Education is very important, and without it people suffer. Lack of education impacts our entire community, our state, our nation, our world. So this would be a good way to make quality education available to everyone, starting with Sussex County. I hope VPS is approved.

Thank you,
Sabrina Neal

Secretary of Education

December 30, 2014

Dear Mr. Murphy,

I am a citizen of Sussex County, DE and I would like to see this new charter school be able to open. We need more choices in Sussex County. We should be able to give our children the best so they don't drop out of school or end up working in plants and factories. Those jobs are important too, but they don't have to be the only choices our kids have. They need to know that they can do anything, and that there are schools and resources and people to help them accomplish their dreams.
