

School Vaccination Medical Exemption Form

The School Vaccination Medical Exemption Form is the official Division of Public Health (DPH) document to be completed by a currently licensed physician, advanced practice nurse, nurse practitioner, or physician’s assistant to exempt a child from childcare or school immunization requirements. The clinician certifies that due to the child’s health or medical condition, the child may be adversely affected on a temporary or permanent basis by one or more of the required vaccines. The signed medical exemption statement verifying true contraindications/precautions is submitted to and accepted by Delaware schools, child care programs, and other agencies that require proof of immunization. The signed form does not require further approval from the Delaware Division of Public Health.

For exemption of medical conditions not listed on this form, the clinician must submit the Supplemental School Vaccine Medical Exemption Form to DPH for approval.

A **contraindication** is a condition in a recipient that increases the risk for a serious adverse reaction. A vaccine will not be administered when a contraindication exists.

A **precaution** is a condition in a recipient that might increase the risk for a serious adverse reaction or compromise the ability of the vaccine to produce immunity. Under normal conditions, vaccinations should be deferred when a precaution is present. Indicate if an exemption is permanent or temporary.

Vaccine medical contraindications are determined by the Advisory Committee on Immunization Practices (ACIP).

Please return the form to:

School: _____

Address: _____

Fax Number: _____

Please indicate whether the exemption is: **permanent** or **temporary**

For **temporary** exemption, list the date the exemption ends: ____/____/____

Pneumococcal Disease	<input type="checkbox"/>	<input type="checkbox"/>	Contraindications
			<ul style="list-style-type: none"> Severe allergic reaction (e.g., anaphylaxis) after a previous dose of PCV7 or PCV13 or to a vaccine component, including to any vaccine containing diphtheria toxoid For PPSV23, severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component
	<input type="checkbox"/>	<input type="checkbox"/>	Precautions
	<input type="checkbox"/>	<input type="checkbox"/>	<ul style="list-style-type: none"> Moderate or severe acute illness with or without fever

I am aware that in the event that the Division of Public Health (DPH) declares an outbreak of a vaccine preventable disease, or if in the estimation of DPH, my child has had, or is at risk of having an exposure to a vaccine preventable disease, my child shall be temporarily excluded from attendance at the childcare and/or school until the risk period ends, which may be three weeks or longer. My child shall be authorized to return to school once approved by DPH.
