Exemplary Programs

Carrie Downie Elementary School has several exemplary programs designed to promote academic achievement and success. Included are Integrated Language Arts, Response to Intervention, Learning-Focused Strategies, Investigating Investigations Math Curriculum, Foss Science Kits, Developmental Guidance, School-wide Title 1, ELL Classes, Volunteer Mentoring Program, and the Positive Behavior Support/ABC Program (building-wide discipline program). In addition, A Parent Resource Center is located within our school to support our parents and community members with materials to reinforce learning in the home. A Family Crisis Therapist is on staff at Carrie Downie School to provide on-site assistance for students and families who find themselves in crisis situations. Throughout the year, the Leadership Team works with the staff and parents to develop a Success Plan for the school.

Curriculum Highlights

The academic programs at Carrie Downie School are based upon state standards, grade level expectations, and board approved curricula. Our students are provided with a well-rounded educational experience that is tailored to their needs. Differentiated and rigorous instruction is exercised daily within the classroom. In addition, the staff utilizes scientifically researched-based instructional strategies that promote higher order thinking, problem solving, and effective communication skills to ensure that students meet the standard.

Exemplary Programs

Castle Hills Elementary provides enriching academic programs for students in grades K - 5. The school reflects the diversity of the community it serves and the children are guided by dedicated, experienced staff who represent the best of Delaware Schools.

Response to Intervention has been implemented as a multi-step approach to providing services and interventions to struggling learners at increasing levels of intensity. In addition to classroom instruction, struggling students work in small groups on specific areas to enhance their particular area of difficulty.

We are a Positive Behavior Support School that recognizes students for being good citizens. Students can earn CHES coupons and join in a special school activity or event at the end of every marking period.

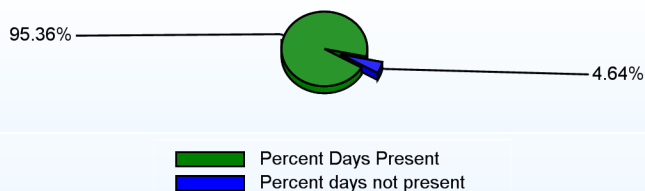

Curriculum Days are conducted to focus on one content area for an entire day for the purpose of review or enrichment. Parents are invited to participate and observe the lessons and activities for the day.

Curriculum Highlights

Our goal at Castle Hills Elementary is to improve the academic achievement of all students. Our faculty and staff are dedicated to help prepare our student's for academic success.

Castle Hills is a Professional Learning Community. It is our practice as a teaching staff to use student data, grade level essential learning, and our standards-based curriculum to design individual interventions for remediating and accelerating students. Our curriculum is aligned with the Delaware Standards that ultimately assures a high quality education by a very experienced teaching staff.

Exemplary Programs

Pleasantville Elementary School provides children with a firm foundation upon which they can build a lifetime of learning. Our belief is that students must be truly involved and engaged in their daily learning in order to promote success. Therefore, a wide variety of instructional activities are offered throughout the day to address the needs of many different types of intelligences and learning styles. Both reading and writing are integrated through all subject areas and students are able to show that they have learned content in a variety of performance-based assessments. Students are encouraged to work together cooperatively while developing higher order thinking skills and problem solving techniques. Our teachers are well versed in understanding the State Content Standards and what students need to master in order to meet or exceed standards on the state test.

Curriculum Highlights

A wide variety of academic programs are available to meet students' instructional needs and help them to develop their potential. Pleasantville's students have the opportunity to experience hands-on, inquiry-based instruction in Math and Science. Our district has adopted a differentiated instruction approach to teaching reading through the implementation of small, needs-based groups and focused center activities. Our teachers receive on-going staff development and training opportunities in all subject areas. Pleasantville's staff is dedicated to providing support services to assist students both academically and socially throughout the school day. Our school guidance counselor provides individual and group counseling and also implements classroom lessons to develop social skills. Outside agencies help us to provide high-quality instruction about health and emotional development.

Exemplary Programs

Our goal at Wilmington Manor Elementary School is to ensure that all students are learning at the highest level so that they are able to reach their potential as students and citizens. Students are challenged to reach demanding academic expectations through a balanced achievement model. As part of a comprehensive education, our teachers expose students to a scientifically, research-based curriculum using proven instructional strategies in order to provide full access to the many facets of learning. To do so, our staff is committed to supporting overall student achievement as a professional learning community. In collaborative teams, our teachers plan lessons aligned with the Delaware Prioritized Curriculum Standards, and make data-driven, instructional decisions to provide students exposure to the core curriculum with opportunities for intervention and enrichment in all content areas.

Curriculum Highlights

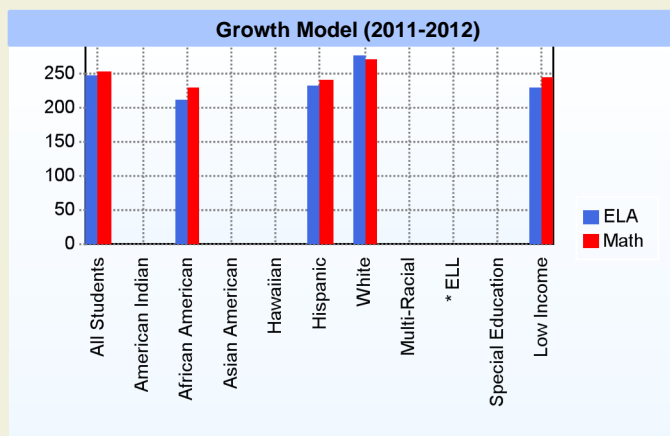

The teachers at Wilmington Manor are passionate about making learning a rewarding and successful experience. Lessons developed target a wide range of learning styles so that the academic opportunities are relevant and exciting. Our teachers create activities and use resources that promote critical thinking and offer hands-on experiences that are differentiated for the unique needs of our students. Our after-school Extra Time program provides students with additional exposure to basic skills and learned concepts. Our exploratory arts program offers students the chance to paint like Van Gough, play trumpet in the Band, or sing in the Chorus. Other enrichment programs, like the 24 Game competition, Peer Tutoring, and Accelerated Reader, expand student choices to express their talents. Social skill programs promote a positive school environment. Our school counselor and Family Crisis Therapist are available to support the social, emotional, and academic needs of students as needed.

Exemplary Programs

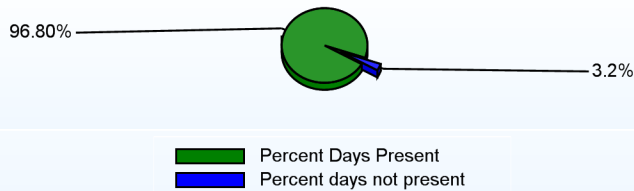

Wilbur Elementary has an excellent staff dedicated to helping all students reach their full potential. Student success is our goal! A focus on higher-level thinking skills, creativity, and problem solving is prevalent in our classrooms. By having high behavioral and academic expectations, our teachers provide children with a firm foundation upon which they can build a lifetime of learning. Our belief is that students must have a high engagement rate in their daily learning in order to maximize their potential. Therefore, a wide variety of instructional activities are offered throughout the curriculum which take advantage of many different types of learning styles. Both reading and writing are integrated through other subject areas, and students are able to show that they have learned content in a variety of performance-based assessments and projects. Students are encouraged to work together cooperatively as they engage in hands-on activities whenever possible.

Curriculum Highlights

At Wilbur Elementary, we strive to make learning fun for our students. One way that we have done this is by implementing several school-wide activity days throughout the year. For example, students participated in Wildcat Mathmania. On this day, children rotated to different classroom participating in fun, hands-on mathematics activities. They came away from the day saying things like, "Math is fun!" and "That didn't feel like learning!" On Storybook Character Day, parents were invited in to participate in reading activities with their children. Staff surprised the students by dressing as their favorite storybook characters. Both band and choral programs are available at Wilbur Elementary and help develop the musical talents of our students. Other curricular programs, like the 24 Game Club and Accelerated Reader, are offered in order to expand students' learning opportunities.

Southern Elementary School provides children a firm foundation on which they can build a lifetime of learning. The basics of reading, writing, and mathematics are emphasized in an integrated program that offers children access to a variety of instructional methods. Instruction is designed and implemented to address Delaware State Standards and the individual strengths of students. A variety of instructional methods and materials are provided to differentiate instruction for all students in the learning environment. Students in grades kindergarten through five are given assessments throughout the school year to monitor academic progress. Instruction is designed to address areas of academic strength and need. Instructional programs at Southern Elementary School are based on district curriculum and pacing guides. Professional development is provided to assist teaching staff with the implementation of the designed curriculum.

Curriculum Highlights

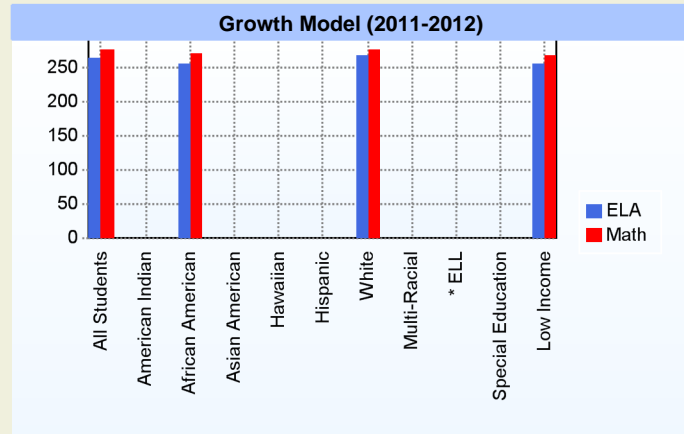

At Southern Elementary School our focus is on improving academic achievement while nurturing the social and emotional development of all students. Parents and community members are vital partners to this endeavor. Volunteers are encouraged to work with students, assist staff and serve as mentors. Parents and staff collaborate to create a positive learning environment. A full day kindergarten program provides appropriate early childhood educational and social experiences utilizing a curriculum based program. Staff development is provided to assist in creating classrooms that differentiate instruction for the diverse set of learners. Many services and activities are provided in response to the needs of students with disabilities. Inclusion classrooms with mainstreaming serve students with moderate to severe disabilities. The implementation of these programs allows students an opportunity to communicate, make decisions, solve problems and cooperate with others.

Exemplary Programs

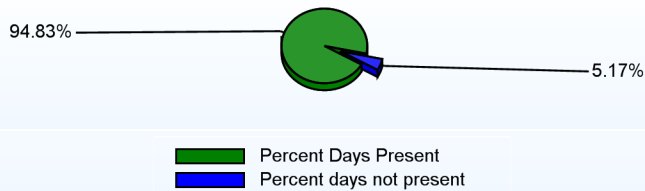

All of the instructional programs at Colwyck School are based on the state standards and district-approved curriculum. We use a multi-disciplinary approach to instruction in all curriculum areas to show how subjects are related. A wide variety of instructional activities are offered throughout the school day promoting academic success. Specific exemplary programs at Colwyck School include hands-on instruction in mathematics and science, Positive Behavior Support school climate approach, Olweus Bully Prevention Program, Title I, Band & Chorus, and Guidance programs. Our teachers will implement Learning Focused Solutions (LFS). This model provides teachers with a strong and practical organization structure for connecting the exemplary practices and research-based strategies that lead to high achievement. Our staff will implement the Responsive Classroom approach to ensure a warm and nurturing atmosphere in which social and academic learning are integrated throughout the school day.

Curriculum Highlights

Colwyck students have the opportunity to experience hands-on, inquiry-based instruction in mathematics and science daily. Utilizing the Investigations Math Program and the Smithsonian/Foss science kits, our students learn through individual investigation and group activities. Students learn to use various manipulatives to aid in their learning. As part of the ELA curriculum, students engage in small group needs-based center activities. Colwyck staff members receive on-going professional development and training in Math, Science, ELA, and Social Studies. Other programs such as Full Day Kindergarten, Accelerated Reader, Earobics, Lexia, ReadAbout, FASTT Math, ELL Support, Reading and math support and additional resources are utilized to help promote student achievement. They are well versed in understanding the State Content Standards and what students need to master in order to meet or exceed the standard on the state test.

Curriculum Highlights

The curriculum at Eisenberg supports the academic and developmental needs of the students. In mathematics the Investigations in Number, Data and Space and in science the Smithsonian Science Kit programs give students hands-on, inquiry-based instruction that encourages the use of manipulatives and the collection of data to make decisions. In reading, writing and social studies the Harcourt curriculum provides students the opportunities to express ideas, determine meaning and explore differences among people, places and things in our society. In all areas of the curriculum students are given opportunities to show what they have learned through a variety of performance based-assessments. Child development programs include mentoring, conflict resolution, positive behavior support, reading resource, AL'S PALS and Accelerated Reader.

Exemplary Programs

Students at Gunning Bedford may display their interests, talents, and abilities by participating in a variety of challenging programs. Each of our core academic areas is augmented by extra-curricular opportunities. Science students are challenged by participating in the Environmental Club and the statewide Science Olympiad. Students of mathematics may participate in the statewide Math 24 Challenge and the Math League. Social Studies students compete in an intramural Geography Bee that leads to statewide competition. Reading features an Accelerated Reader program and language arts skills are refined by writing and editing for the school newspaper and yearbook. Additionally, our Academic Enrichment program provides all students with specific academic remediation in the core areas as well as extension opportunities for our more advanced students.

Curriculum Highlights

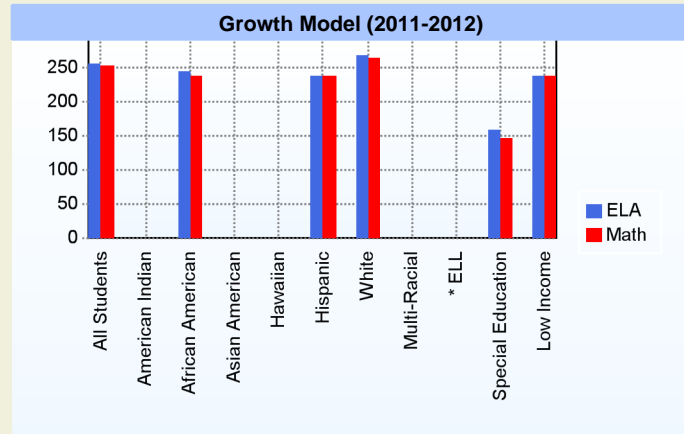

The curriculum at Gunning Bedford is rigorous, performance-based, and aligned with state standards. Math, Science, social Studies, and Language Arts activities reinforce particular topics and units that are developed by instructional teams, using the district-mandated curriculum. Differentiated instructional strategies are used by staff to engage all learners. Computational skills, problem-solving strategies, and the reading/writing process are incorporated into all subjects to reinforce academic and life-long learning. Teachers include real-life scenarios to promote active participation and meaningful transfer of learning from the school to the community. They also strive to teach and use basic research skills, primary resources, the Internet, interviews, surveys, and graphic organization of data so that our students develop critical and comparative thinking skills. The Exploratory Arts curriculum provides two additional courses each marking period to supplement the academic program.

Exemplary Programs

Student progress at George Read is performance-based, aligned with state standards, and showcased through work samples. Math, Science, Social Studies, and Reading/Language Arts activities reinforce particular topics and units that are developed by instructional teams, using the district mandated curriculum. A variety of activities are implemented, including flexible grouping for specific needs, cooperative tasks, and performance-based assignments. Computational skills, problem-solving strategies, and the reading/writing process are incorporated into all subjects to reinforce academic and life-long learning. Teachers also strive to teach and use basic research skills, primary resources, the Internet, interviews, surveys, and graphic organization of data so that our students develop critical and comparative thinking skills.

Curriculum Highlights

George Read strives to provide each student an exemplary educational program that will prepare them for high school and beyond. The teachers have adopted the Learning Focused Solutions model of classroom instruction. Therefore, every student is challenged using higher-order thinking strategies on a daily basis. To address the academic needs of our students, teachers will implement computer based programs such as Read About and Compass Learning. In addition, every student will get the opportunity to participate in a daily enrichment program. The programs address academic and social needs. The Exploratory Arts staff supports the vision of academic success by incorporating Reading, Writing, and Mathematics into their lessons.

Exemplary Programs

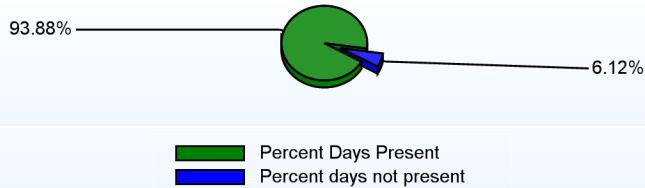

The McCullough staff is committed to challenging students to be academically, socially, and technologically prepared for high school and beyond. McCullough Middle School provides many opportunities for students to succeed. At McCullough Middle School we provide an inviting school environment that facilitates the intellectual, physical, emotional, and social development of children. We hold fast to the idea that learning encourages success and that assessment, including self-assessment, is a critical part of learning. We realize that students have multiple intelligences that need to be recognized and nurtured, and students learn by taking risks in a student-centered, accepting environment. McCullough is a Positive Behavior System school that encourages students to be successful both academically and socially. As a PBS school, McCullough offers many positive rewards and recognizes students for academic achievement & improvement and positive behavior & growth.

Curriculum Highlights

McCullough Middle School utilizes its highly qualified staff to instruct students in the various curricular areas. Students in each grade are designated to specific teams to attend their academic classes. The teachers' familiarity with the students on their team is beneficial for both differentiating instruction and planning cross-curricular activities according to the needs and abilities of their students. Our Language Arts, Social Studies, Math, and Science Curricula are based on the Delaware State content standards and use common assessments as a tool for evaluation. Our staff uses research based strategies from Learning Focused Solutions to engage our students in rigorous and relevant lessons. McCullough's Honors Program has been redesigned to maximize student opportunity to participate. Our exploratory curriculum includes a variety of courses including, but not limited to: Art, Music, Business & Technology, Health, and Physical Education.

Exemplary Programs

All programs at William Penn High School support its mission statement; Preparing Young Citizens for College and Careers. With the approval of Colonial's Race to the Top plan, the District is redesigning programs and curriculum at William Penn to be a college type atmosphere with schools within a school, focused on a 21st Century education. A number of Major Courses of Study will be offered within each "School." Every Major Course of Study will incorporate literacy across the content, 21st century technology, collaborative group work, leadership development, College seminar and Honors/AP/Dual Enrollment options. Students will apply to a "School" and a Major Course of Study prior to entering WPHS. Every 9th grade student will have a 4 year plan with a post high school college, training, or career plan. Every student will take the SAT and complete a college application and a financial aid application.

Curriculum Highlights

As part of the redesign of William Penn High School, the Colonial School District has expanded the Air Force Junior ROTC as well as the Culinary program, and is partnering with Delaware Greenways' Penn Farm project which will offer an array of real world experiences for a vast number of students. William Penn continues to provide a four-year comprehensive high school designed to prepare students for further formal education or the workplace with the understanding that lifelong learning will be a necessity for all. Through 13 departments, we are able to offer interesting and relevant courses designed to meet the individual needs of a diverse student population. Rigorous academic courses prepare students for entrance to college with Honors and Advanced Placement courses available in the core subjects.

Exemplary Programs

John G. Leach School staff and administration works collaboratively with parents, community, state and district groups to empower students reach their fullest potential as independent and productive citizens. Leach School provides focused and motivating learning environments for all students. All staff engages in professional development to provide state-of-the-art programming. Our goal is to employ "best practice" methods, including the use of technology, individualized programming, functional mobility, and meaningful peer interaction opportunities. Our school/parent collaboration has been an integral part of our program's success. Leach School has been recognized with a "Superior" rating for the past 5 years. These efforts also led to Leach School's recognition as the nation's first M.O.V.E. (Mobility Opportunities Via Education) Model Site, twice the recipient of the State of Delaware Parent Partnership Award, the Delaware State Chamber of Commerce Superstars in Education Award.

Curriculum Highlights

Colonial School District has the single goal: "To Improve the Academic Achievement of All Students". At the John G. Leach School, an Achievement Team consisting of the principal, teachers, therapists, paraprofessionals and parents, develops a yearly plan built around that goal. For the 2011 - 2012 school year, Leach School staff will use the adopted Curriculum Framework Process to guide educational planning for this unique student population. We provide staff training that supports positive behavior and the education of all children utilizing the State of Delaware Common Core Standards and guidelines for the State of Delaware Alternate Assessment DCAS Alt1. Leach School staff and families strive to equip students with skills to think for themselves, appreciate the contribution of others, ambulate with increasing independence, learn on their own and communicate their thoughts and ideas effectively.

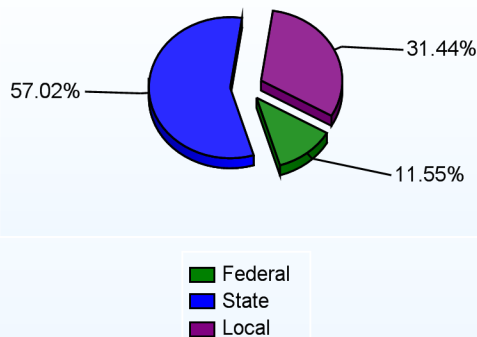

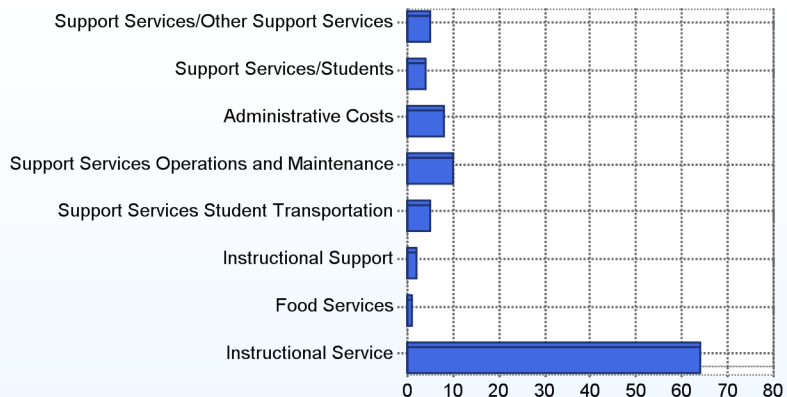

Other

At Leach School, students with disabilities represent all levels of intellectual ability. Leach School's functional educational and training as well as access to a traditional academic curriculum are individualized for students. Students also have the opportunity to develop their capacities for independence and academic success through their participation in supportive therapy - physical, occupational, and speech, community-based instruction and assistive technology supports. Certified Leach School staff provide a variety of instructional "specials". They include music, pool program and adapted physical education for students ages 3 - 21. Goals for these programs include introducing students to a variety of learning techniques, presenting enrichment curriculum using methods of hands on learning, and embedding communication and functional mobility across all activities. Paraprofessionals assist teachers by providing instructional support that meets individual student goals.

Exemplary Programs

New Castle School is a special program designed for non-traditional students in the Colonial School District. Currently, it houses an ILC program for special education students in grades 6-12, an Adult Integration Program for students with cognitive disabilities aged 18-21 and a drop-out prevention program for students from William Penn High School. The ILC program focuses on the academic, behavior and transition needs of students with a history of school-related behavior problems in an effort to provide them with effective strategies they can use to be successful in the general education setting. The Adult Integration Program focuses on the student's academic and social-emotional skills to prepare them to work, live and function in the community. The drop-out prevention program provides credit recovery opportunities for those students that have been unsuccessful in a traditional high school setting.

Curriculum Highlights

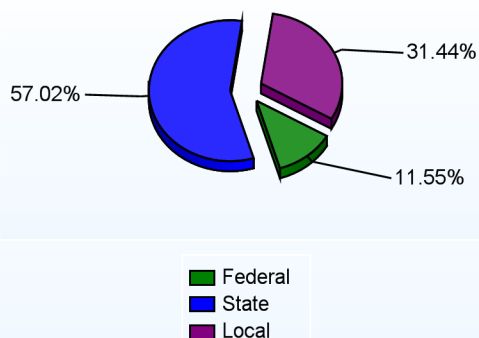

New Castle School offers a comprehensive academic program in a safe and nurturing environment conducive to learning. The academic program is aligned with the district curriculum and state standards. The use of technology such as Smart Boards is an integral part of the academic program used to enhance student learning. Teachers and staff strive to provide students access to the general education curriculum through appropriate curriculum modifications and testing accommodations. Along with the core academic program, students are afforded the opportunity to take art, business, and physical education courses. Additionally, New Castle School offers an online credit recovery program to help students graduate on time.
