Exemplary Programs

The Conservation Club is comprised of over 100 students. They received the Governors Conservation Award for promoting conservation practices in Delaware. The club maintains the schoolyard, the myriad of gardens, and an organic vegetable garden. Many of the students also dedicated a significant amount of hours on beautification projects within the community and at Woodbridge Elementary School. PWMS Scholars is for students who have made either Honor Roll or Distinguished Honor Roll. These students were given opportunities such as attending the Inauguration of President Obama in Washington DC and the Broadway musical "Stomp" in NY. To help raise monies for these trips, students participated in a fundraising car wash. Scholars also attend a special breakfast in their honor each marking period and receive a certificate.

Curriculum Highlights

Our classrooms are organized in teams of four representing each of the core curricula areas. All of our science teachers have been trained in the available science kits provided by the state. Social Studies focuses on topics covered in the textbooks Geography Alive, American Nation, Ancient Civilizations, and History Alive. In addition, each grade level has been involved with piloting model units provided by the state. Algebra is offered for identified eighth graders, Connected Math Program for grades six through eight, and Houghton Mifflin "Math Expressions" for fifth grade. For ELA, PWMS uses Holt (7/8) or Houghton Mifflin (5/6). Teachers integrate reading skills, strategies, and various writing prompts throughout the stories and leveled readers. Selected novels are used in Literature Circles throughout the grade levels. Also, there is an Honors ELA class taught at every grade level.

Student Achievement

Exemplary Programs

WES students are involved in a variety of activities to challenge their academic and creative skills, build responsibility, and promote teamwork and cooperation. Related arts programs include art, music, physical education, computers, library, and critical skills. Others school programs include Team Approach to Mastery (TAM) classrooms, resource classrooms, the Raider After-School Coaching Program, the Sussex County Boys and Girls Club, Houghton-Mifflin Reading, Houghton-Mifflin math, the Smithsonian science program, the Grades K - 3 Intervention program, English as a second language (ESL) classes, summer school, tutoring by Foster Grandparents and our Volunteer Program, as well as those programs highlighted below. We also utilize the Positive Behavior Support model to teach our school-wide rules and positively reinforce the use of these rules.

Curriculum Highlights

6 + 1 Writing Instruction

Woodbridge Elementary School staff have attended workshops and seminars on the writing process. Our teachers and students are enjoying the learning of writing by focusing on specific traits of writing and scoring each piece on a rubric. The ideas, organization, voice, sentence fluency, word choice, conventions, and presentation of writing are developing nicely at WES.

Reading First

Reading First uses scientifically-based reading research that emphasizes systematic and explicit teaching of five key early reading skills: Phonemic awareness-the ability to hear, identify, and play with individual sounds in words; Phonics- the relationship between written letters and sounds; Fluency-reading text accurately and quickly; Vocabulary- the words students must know to communicate effectively; and Comprehension-the ability to understand and gain meaning from what has been read.

Exemplary Programs

Woodbridge High School is changing. We are developing a culture with a strong academic emphasis as witnessed by our expansion of Advanced Placement course offerings to 6 Advanced Placement course offerings with more on the way. We offer English 11, English 12, Spanish, US History, Biology, and Calculus. This coming school year we have already scheduled over 200 participants in these 6 classes. This emphasis will only serve to enhance the already outstanding set of Career and Technical offerings that Woodbridge is known for statewide. Outstanding programs in unique areas such as Early Childhood, Structural Systems, and Medical Technology are well ingrained and continue to expand with the increasing demand. Our Agricultural Sciences have been honored statewide and highlighted each year in a variety of venues such as the State Fair. This program is enhanced by the addition of working farm property off campus.

Curriculum Highlights

Woodbridge High School will become a leader in Advanced Placement academics. We have expanded our offerings of English 11, English 12, US History and Spanish to include new offerings in Biology and Calculus. Our emphasis on Advanced Placement course work expands the goal of providing students with as many options as they may need upon graduation and go on to the next phase of their life. This year there were 122 AP tests given, up from 59 the previous year. Advanced Placement courses give students the opportunity to experience college level course work in a high school setting. It also gives students the opportunity to earn college credit through the course work and the passing of the AP exam given in May of each year. Research has shown that even the process of taking and completing an Advanced Placement course, whether college credit is earned or not, gives students a better chance statistically to succeed in college and graduate from college.
