Teacher: Richard Lynch

Mr. Lynch is a great teacher because he actually cares if I learn something. One thing he does is when any class doesn't know the facts he makes the people who don't know practice it. I like the way Mr. Lynch teaches because he doesn't like using the math book because he doesn't like the way the book does it. He does his own work, and that's why I like it. Mr. Lynch does things in a way that you understand it very well, and he also does it fast. Since Mr. Lynch collects things, he stops class and tells stories or he talks about something he has then he passes it around so everyone can see it. I really like it when he does that.

Another thing Mr. Lynch does is he puts music on when we work. Another thing I like about my teacher is even though we already had recess outside when we switch back from class, he gives us 15 minutes of indoor recess. The last thing I like about my teacher, which is my favorite thing, is when we go outside we march and sing some random words that rhyme. That is what I like about my teacher.
